LIFETIME GUARANTEE

We are proud to guarantee our jewelry against defects in materials and workmanship.

According to legend, a French goldsmith named Henri LeBeau became lost during the "gold rush days" of the middle 1870s in the Black Hills of South Dakota and fell asleep believing he was dying of thirst and starvation. During a dream, he saw a mountain stream with grapevines growing on its banks.

Upon awakening, he walked over a rise and found the stream and grapevines just as he had in his dream and, out of gratitude, dedicated his life and talents to creating jewelry in the shapes of grape clusters and leaves fashioned in rose, green and yellow gold.

Today, a series of up to 40 different steps are necessary to capture the same dramatic detail in our traditional and contemporary Black Hills Gold designs.

To clean your jewelry, use a soft toothbrush and warm, soapy water. Most over the counter jewelry cleaners can be used. Be sure to use special care with jewelry set with opals, pearls, semiprecious and precious stones.
