UNCOMPROMISING CRAFTSMANSHIP IN AN AFFORDABLE, COMPACT PACKAGE

The Nautilus® NOVA line offers you the same commitment to biomechanical and mechanical excellence as the rest of the Nautilus® strength lines in a more affordable package. The modern streamlined design minimizes floor space requirements.

The single and dual line features 11-gauge steel frame tubes and incorporates a 200 lb weight stack in 15 lb increments with integrated 5 lb. increment "drop down" add-on weight system. The Kevlar® reinforced belt drive system, double-sealed bearings, four-bar linkage and ultra-low friction guide rod bearings provide a longer life, a smoother feel and a stronger weight transport system than conventional cable drive systems. Marine-grade, contoured upholstery adds comfort, longevity and improved aesthetics over flat pads. Multiple color options are available for the frame and upholstery.

SPECIAL FEATURES

- Features dual-cable handles for multiple movement paths
- Independent cable design allows both bilateral and unilateral motions for more exercise options
- Large, non-slip rubber encased foot-plates combined with a long angled seat provide the ultimate in stabilization
- Hybrid cable/ Kevlar reinforced design. Belt for the weight transport system, cable for the actual motion so to better accommodate the number of lat motions that can be accomplished
- 76" L x 22" W x 72" H, Machine Weight: 427 lbs
- Warranty: 12 years- Frame/Welded Moving Parts/Weight Stacks, 3 years-Moving Parts, 1 year-Labor and 6 months on upholstery/pads/grips and tethered weight stack pins.
