THE XPLOAD™ LINE IS THE FIRST PERFORMANCE TRAINING EQUIPMENT WORTHY OF THE NAUTILUS NAME

The XPLOAD line of plate-loaded strength equipment successfully bridges the gap between free weights and selectorized fitness equipment. The XPLOAD series features include high-quality materials, including 2" x 4", 11-gauge wall mainframe tubing for impressive aesthetics and structural integrity, as well as rotating components with high-precision, sealed for life, deep-groove bearings and self-lubricating ball joints that ensure low maintenance and high quality.

You'll appreciate low-to-ground loading points for easy and safe loading and tilt-and-glide adjustable seats with high-resolution positioning and high-grade upholstery pads. The XPLOAD machines also include removable weight storage horns that provide substantial weight plate storage on the machine. Multiple color options are available for the frame and upholstery.
