FRIGIDAIRE.

Drop-In Ranges

FFED3025P S/W/B

Signature Features

Large Capacity

Our large capacity oven gives you room to cook more at once.

Even Baking Technology

Our even baking technology ensures even baking every time.

Extra-Large Element

With our extra-large 12" element, you have more flexibility to fit larger pots and pans.

One-Touch Self-Clean

Your oven cleans itself—so you don't have to. Self-clean options available in 2- and 3-hour cycles.

30" Electric

More Easy-To-Use Features

Built with American Pride

Appliances that are high-performing, more accessible, and more innovative than ever—designed, built, and engineered in the U.S.A.

SpaceWise® Expandable Elements

Flexible elements expand to meet your cooking needs — big or small.

Extra-Large Window

Check on the status of your dish without having to open the oven door.

Ready-Select® Controls

Easily control your cooking temperature with our easy-to-use controls.

Oven Rack Handles

Oven racks are designed with space for you to easily pull out the racks, even when wearing an oven mitt.

Delay Clean

Set the oven to begin cleaning on your schedule.

Auto Oven Shut-Off

As an extra safety measure, the oven will automatically shut off after 12 hours.

A.D.A. Compliant

When properly installed, this model is A.D.A.-qualified based on the United States Access Board's A.D.A./A.B.A. Accessibility Guidelines and the Department of Justice's 2010 A.D.A. Standards for Accessible Design.

Available in:

Elements	Size	Watts
Right Front	12"	2,700
Right Rear	6"	1,200
Left Front	6"/9"	1,400/3,000
Left Rear	7"	1,500

FRIGIDAIRE.

Drop-In Range Specifications

- Product Shipping Weight (approx.) 185 Lbs.
- Single phase 3- or 4-wire cable, 120/240 or 120/208 Volt, 60 Hertz, fused on both sides of line with ground. (If local code permits, range may be connected by hard-wiring or by means of power supply cord kit.)
- Connected Load (kW Rating) @ 240/208 Volts = 11.8/8.9 kW
- Amps @ 240/208 Volts = 49.1/42.8 Amps
- Recommended Circuit Breaker 50 Amps (40 Amps minimum)
- · Always consult local and national electric codes.
- Make sure wall coverings around range can withstand heat generated by range.
- Linoleum or any other synthetic floor covering located beneath range, must be capable of withstanding minimum heat of 90° F above room temperature without shrinking, warping or discoloring. Insulating pad or 1/4"-thick plywood required between range and a carpeted floor.
- When installing optional Backguard Kit, cutout depth of 21-3/4" minimum/22-1/8" maximum needs increased to 24".
- Overhead cabinetry should not exceed a 13" maximum depth.
- Absolute minimum horizontal distance between overhead cabinets installed to either side of appliance must be no less than maximum width of appliance.
- Allow 24" minimum clearance between rangetop and bottom of cabinet when bottom of wood or metal cabinet is protected by not less than 1/4" flame-retardant millboard covered with not less than No. 28 MSG sheet steel, 0.015" stainless steel, 0.024" aluminum or 0.020" copper. Allow 30" minimum clearance when cabinet is unprotected.
- To reduce risk of fire when using overhead cabinetry, install range hood that projects horizontally a recommended minimum of 5" beyond bottom of cabinets.

Countertop Preparation

Rangetop's side flanges overlap countertop cutout edges - for detailed preparation instructions, refer to product installation guide on the web.

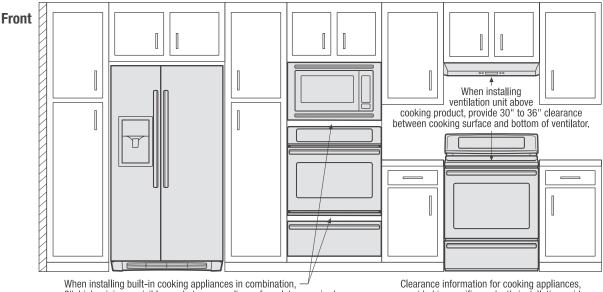

- Flat Square-Finish Countertops require no preparation since rangetop's flange lays directly on countertop edge.
- Formed Front-Edged Countertops require front molded edge to be shaved flat 3/4" from each front corner of opening.
- Tile Countertops may need trim cut back 3/4" from each front corner of opening and/or rounded edge flattened.
- For existing cutout width greater than 30-1/16" reduce the 3/4" overlap dimension; for cutout width of 29", replace actual side trim panels with smaller side trim panels, available with optional Side Trim Kit (refer to detailed kit installation instructions).

Note: For planning purposes only. Refer to Product Installation Guide on the web at frigidaire.com for detailed instructions.

Optional Accessories

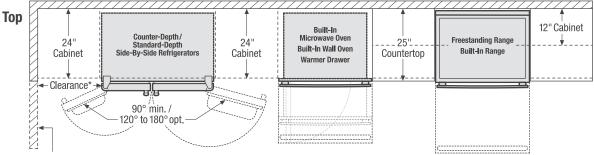

- Rear Filler Kit: Stainless Steel (PN# 901193-901S),
 White (PN# 901193-9011), Black (PN# 901193-9010).
- Backguard Kit: Stainless Steel (PN# 903046-901S), White - (PN# 903046-9011), Black - (PN# 903046-9010).
- Side Trim Kit: Stainless Steel (PN# 903076-901S), White - (PN# 903076-9011), Black - (PN# 903076-9010).
- Bottom Trim Kit: Stainless Steel (PN# 903068-901S),
 White (PN# 903068-9011), Black (PN# 903068-9010).

2"-high minimum visible gap between appliance faceplates required.

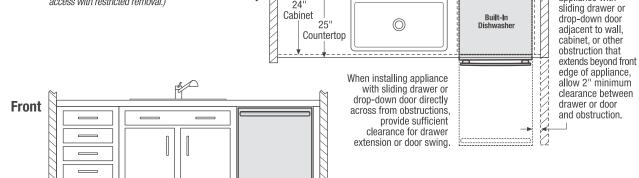

provided in specific product's installation guide.

*When installing side-by-side refrigerator adjacent to wall, cabinet or another appliance that extends beyond front edge of unit, 20" minimum clearance recommended to allow for optimum 120° to 180° door swing. providing complete drawer/crisper access and removal. (Absolute 4-1/2" minimum clearance will ONLY allow for 90° door swing which will provide limited drawer/crisper access with restricted removal.)

When installing appliance with sliding drawer, swinging or drop-down door directly across from obstructions, provide sufficient clearance for drawer extension or door swings.
