1. Specifications vary depending on model.

2. Resolution/refresh rates depend on monitor capability and color/depth settings.

3. All available system memory may be allocated for system resource requirements.

4. Shared system memory may be allocated to support integrated graphics, depending on system memory size and other factors. Actual system memory available to the operating system will be reduced by the amount of dedicated and shared system memory utilized by the graphics solution and resources required by the operating environment.

5. Manufacturing option.

6. 1 GB is 1 billion bytes. Actual formatted capacity is less and may vary depending on preloaded materials and operating environment.

7. Actual throughput may vary depending on network conditions and environmental factors such as network traffic or overhead, building construction, and access point settings.

8. Acer Nplify™, a high-throughput wireless solution, delivers superior performance and reliable connections while enabling emerging voice, video and data applications. Wi-Fi CERTIFIED™, it supports Acer SignalUp™ wireless technology and is compliant with 802.11a/b/g/n and 802.11b/g standards.

9. Your computer's battery life may vary depending on product specifications, computer settings, and applications or features launched. The listed battery life is for individual battery packs tested with MobileMark 2007 in productivity test mode, and browsing websites via wireless connection. All batteries' maximum capacity will diminish with time and use.

10. Bundled software may vary depending on hardware configuration, OS and regional availability.

11. For Japan only, and subject to customer request.

12. Microsoft® Works SE 9 for Brazil, Canada, France, Germany, Poland, Russia, UK and US. Microsoft® Works 8.5 for China, Hong Kong (traditional Chinese) and Singapore. Microsoft® Works 9 for other countries/regions.

13. Trial periods vary depending on the geographic region and specifications: 365-day trial for China, Taiwan, Hong Kong and

As a phenomenon known to thin-film transistors (TFTs), liquid crystal displays (LCDs) commonly exhibit a small number of discoloration dots, as so-called "non-conforming pixels." This phenomenon is a limitation of TFT LCD technology, not a product defect, and as such is not covered by Acer's warranty.

About Acer

Since its founding in 1976, Acer has constantly pursued the goal of breaking the barriers between people and technology. Focused on marketing its brand-name IT products around the globe, Acer ranks as the world's No. 3 vendor for total PCs and No. 2 for notebooks, with the fastest growth among the top-five players. A profitable and sustainable Channel Business Model is instrumental to Acer's continued growth, while the successful mergers of Gateway and Packard Bell complete the company's global footprint by strengthening its presence in the U.S. and enhancing its strong position in Europe. The Acer Group employs more than 6,000 people worldwide. 2008 revenues reached US$16.65 billion. See www.acer.com for more information.
