

33" 357cc* DUAL-STAGE SNOW THROWER W/ ZERO-TURN**HEATED HAND GRIPS**

keeps hands warm during cold winter operation

**PERFORMANCE**

- 357cc* 4-Cycle OHV Craftsman® engine provides more power, longer life, and improved fuel economy – no mixing of gas and oil required. Move more snow with a more powerful engine and save time out in the cold
- Push button electric start allows for easy and sure starts in cold temperatures
- 33 inch clearing width and 22 inch intake height lets you clear more snow with each pass, ideal for large to extra large paved and gravel driveways and sidewalks
- 16 inch serrated steel auger and 16 inch impeller breaks up hard-packed snow and discharge larger volumes of heavy, wet snow
- 6 forward and 2 reverse, power-propelled speeds save time and energy, allowing operator to adjust speeds to match need

**DESIGN**

- Trigger controlled zero-turn steering system allows operator to turn unit with ease, increasing maneuverability while reducing user fatigue and time
- Remote chute control and joystick pitch control – 190 degree chute rotation and pitch control without leaving the operator's position
- Extreme capacity discharge chute throws large volume of snow in a tight pattern for longer throwing distance
- In-dash L.E.D. headlight illuminates the clearing path
- Tool-less drift cutters – cut into taller drifts and drop snow into snow thrower path to increase efficiency
- 16" x 6.5" X-Trac tires provide superior traction in heavy snow conditions
- Large deluxe Glide-Tech™ skid shoes eliminate garage rust stains and driveway damage, by sliding along pavers and bricks

**CONVENIENCE**

- Heated hand grips make using this unit more comfortable in cold temperatures
- Single hand operation eliminates starts and stops, freeing up a hand for on-the-go adjustments
- Mitten-grip starter handle – easy to grasp and turnover recoil start while wearing gloves
- Plow style handles for comfort and control with panel design for convenient shear pin storage

**WARRANTY**

2 Year Limited Warranty
