

Congratulations on your purchase of a Double-wall Thermo Glass Set by Ozeri. Your Ozeri glasses are made of durable, heat-resistant, mouth-blown borosilicate glass of the finest quality. Borosilicate glass is stronger than common glass, shatter-resistant, and with Ozeri's double-walled designs, it offers the ultimate insulation. The Ozeri double-wall designs keeps your hands cool even with your hottest drinks and free of condensation with your chilled beverages. Ozeri double-wall glasses are great for coffee, cappuccinos, hot or iced teas, cocktails and beer, frozen beverages and much more.

Ozeri Double-wall Thermo glasses are oven and microwave safe. Dishwashers can also be used for cleaning, but due to the risk of contact with other dishes and utensils, hand washing is preferred. Please use caution when placing ice in the glass or when using stirrers such as metal spoons. Since each Ozeri glass is handmade using mouth-blown techniques, each glass will be unique and may have slight differences in shape, thickness, height and weight.
