Care and Maintenance

- For cleaning, use a mild detergent solution and rinse with water. Do not use acetone abrasive or others special detergents to clean and air dry only.
- Due to the nature of aluminum, surface oxidation (rusting) will occur if this protective coating is scratched. This is a natural process. To minimize this condition, it is recommended that care be taken when assembling and handling the product in order to prevent the paint from being scratched.

Pre-Assembly

PLANNING ASSEMBLY

To prevent damage, place all parts on a soft surface during assembly.

Do not leave it unattended if not fully assembled even if bolted to the ground.
