## Care and Maintenance

- Though its powder-coated finish is rust-resistant, steel is prone to rust over time with exposure to the elements. In case of rust or scratches, lightly sand the affected area and apply touch-up paint. To maintain the finish periodically apply wax with a soft cloth.
- Tabletop ceramic tiles must be stored during fall and winter months in a dry location where temperatures will not fall below 32°F (0°C). Use furniture covers or store indoors during cold or inclement weather.
- Wash frames and cushions with a mild solution of soap and water; rinse thoroughly. Dry completely and drip-dry cushions. Do not use bleach or solvents.
