## Care and Maintenance

---

- Do not allow water to build up in frames. This will cause corrosion and possible freezing damage in cold climates.
- Use a mild soap and water for normal cleaning. DO NOT use janitorial or alcohol based cleaners. Some cleaners may be marked as natural, but some ingredients can cause discoloration or have adverse reaction to your finish.
- Rinse with clean water and dry with a soft, absorbent cloth towel.
- Cushions, slings, and/or an umbrella may be cleaned by hand with a solution of soap and water with a clean water rinse. Never machine wash as this will result in shrinking or damage. After cleaning, tip on end and allow to drip dry. Never use a commercial or home dryer to tumble dry fabric goods.
- Treat frames with liquid wax for maximum protection against UV rays and /or salty, damp air.
- Umbrella should be closed when not in use. Umbrella should be removed and stored in the event of wind, rain, hail, sleet, snow, or any other inclement weather. To prevent damage to your table, always use an umbrella base with your umbrella. Store indoors during winter months.
- Use and operation: To prolong the life of your outdoor furniture, cover when not in use. Store indoors during winter months.
