## Product Care & Storage

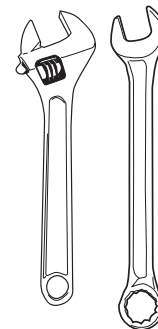

Your new poolside game has been made with many non-corrosive quality materials and should provide you with many years of enjoyment with proper care. However, sun and chemically treated pool water (chlorine) are natural enemies of many synthetic materials. For maximum life of your game, please do the following:

1. Do not leave the game ball floating around the pool when not in use.
2. After use, wash away the chlorine pool water with plain water using a garden hose.
3. When not in use, store your game in a dry place away from direct sunlight.

Flathead Screwdriver

Electric Drill

1/16" Open or Box Wrench  
or Adjustable Wrench

3/16" Drill Bit

Rubber  
Mallet

Eyelet/Pole Detail

Connector Detail

Diagram A

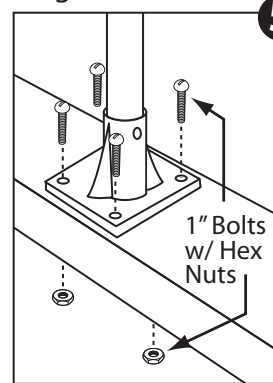

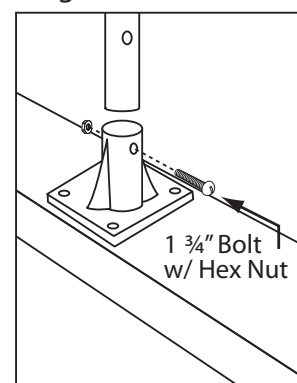

Diagram B

## Step 1

- Secure Coupling between two upright poles and secure with 2 Set Screws. Repeat for other set.

## Step 2

- Situate the game on the pool top rail at your desired location. Using the holes in the Rail Connector as a guide, drill eight  $\frac{3}{16}$ " in top rail, four holes per connector.

## Step 3

- Attach the connectors to the pool and secure with (8) 10-24 Nuts and Bolts. (Figure 5-A)

## Step 4

- Insert Eyelet into the top holes on the Upright Pole Support (see Eyelet/Pole Detail) and fasten with Washer and Hex Nut (repeat for other side).

## Step 5

- Insert the Upright Pole into the Rail Connector, secure with  $\frac{1}{4}$ " x  $1 \frac{3}{4}$ " Bolts (repeat for other side.) (Figure 5-B)

## Step 6

- Extend the Net across the pool, pull tight and tie Net Ropes to the top of each pole through the Eyelets. Net can be shortened by rolling on pole or lengthened by extending the Rope Ties.

## Step 7

- Tie net ropes to the bottom of each pole.

## Step 8

- Tie two 8ft. Ropes to the Eyelet at the top of the Upright Pole and extend diagonally and tie to the Pool Upright Support (repeat for other side).
