## DICK CEPEK STANDARD LIMITED WARRANTY

### ELIGIBILITY:

This warranty applies to the original purchaser of a Dick Cepek passenger or light truck tire and is not transferable. Eligible tires must be purchased new and must be used on the vehicle which they were originally installed. Additionally, they must be an equivalent or greater load index to that specified by the vehicle manufacturer. For warranty exclusions, please refer to the complete "Dick Cepek Passenger and Light Truck Limited Warranty" by [CLICKING HERE](#) or contact Dick Cepek's technical support department at 1-800-222-9092.

### STANDARD COVERAGE

If your Dick Cepek branded tire becomes unserviceable as a result of an eligible adjustable condition during the first 2/32" of tread wear, it will be replaced with an equivalent new Dick Cepek tire, FREE OF CHARGE. When the tread is worn more than 2/32", if the product exhibits an eligible adjustable condition, it will be replaced on a pro rated basis. For the tire pro ration schedule, please refer to the complete "Dick Cepek Passenger and Light Truck Limited Warranty" at [www.dickcepek.com](http://www.dickcepek.com) or contact Dick Cepek's technical support department at 1-800-222-9092. You must present proof of purchase and be the original owner when requesting a replacement for your tire.

A replacement charge may be required in order to obtain a replacement tire. The replacement charge will be determined by multiplying the dealer's current selling price by the percentage of original tread depth worn from the tire. You must pay for mounting, balancing, and any other additional charges, such as taxes or the acceptance of a higher priced replacement tire.

Any Dick Cepek tire that does not deliver satisfactory service due to a balance, out of round or a ride complaint issue will be replaced without charge within the first 2/32nds of the tire's tread life. After the first 2/32nds the tire is not warrantable for the aforementioned conditions.

### TREAD LIFE

When the tread becomes worn to 2/32" (1.6mm) anywhere on the tire (shown by tread wear indicators moulded into the tread grooves), the tire is worn out. WARNING — for important safety information, please refer to the complete "Dick Cepek Passenger and Light Truck Limited Warranty" at [www.dickcepek.com](http://www.dickcepek.com) or contact Dick Cepek's technical support department at 1-800-222-9092. Additional Tire Safety Information is also available from your local dealer.

### HOW TO OBTAIN AN ADJUSTMENT

Tire adjustments must be presented to the dealer which originally sold the tire. You must be able to provide proof of purchase and be the original owner when requesting a replacement for your tire. See "Where to Go for Warranty Replacement".

### NO ROAD HAZARD COVERAGE

Many dealers sell or provide their own warranty coverage for road hazards and/or repairs. Dick Cepek does not provide this coverage. Check with your dealer to determine if Road Hazard/Repair coverage is available from them.

### REPLACEMENT WARRANTY

If you receive a replacement tire under the terms of this Warranty, the replacement tire will be covered by the Warranty then currently given by Dick Cepek for the replacement tire.

### WHERE TO GO FOR WARRANTY REPLACEMENT

Contact the Dick Cepek dealer where the tire was originally purchased for initial inspection. If the dealer which originally sold the tire is no longer available, please

contact Dick Cepek's technical support department via email at [tech@dickcepek.com](mailto:tech@dickcepek.com) or 1-800-222-9092 for assistance in finding a Dick Cepek dealer (Proof of purchase will be required) You may also visit our website [Dealer Locator](#).

## CONDITIONS AND EXCLUSIONS

Any tire, no matter how well constructed, may fail in service or otherwise become unserviceable due to conditions beyond the control of the manufacturer. Nothing in this Warranty is intended to be a representation by Dick Cepek that tire failure cannot occur.

## TIRES: RADIAL VERSUS BIAS

Bias tires tend to ride and handle differently than radials. Bias ply or bias belted and radial tires should not be mixed on the same vehicle.
