

## WARRANTY

**TERMS OF THIS WARRANTY.** E. D. Industries, Inc warrants that the ABS polymer structure of your UnderCover tonneau will be structurally free from defects in material and workmanship for (3) three years from the retail date of your purchase. The gas/hydraulic lift struts and hardware are warranted to be free from defects in material and workmanship for (1) one year from the retail date of purchase. This warranty applies only to the original purchaser, only when purchased from an authorized UnderCover dealer and is nontransferable. Your original sales receipt will serve as proof of purchase for this warranty. This warranty applies only to the original truck or original installation. Before credit can be issued on a warranty claim, proof of defect may be required in the form of pictures. This can be determined at the time of claim.

**EXCLUSIONS OF THIS WARRANTY.** Not covered under this warranty is failure due to neglect, improper installation including any modifications to installation hardware, operating the truck with your UnderCover in the open position, alterations, addition of equipment, abuse, accidents, weather related damage, exposure to chemicals that are not labeled "safe for plastics", and normal wear and tear from lack of maintenance.

**CAUTION.** Do not attempt to drive with your cover in the open position or to tie your cover down while in the open position. When hauling material that is taller than the truck bed height, you should remove the cover, store, then properly haul oversized material. Tying the cover down when open will cause severe stress to your front hinges and could cause one or both of the hinges to crack and possibly tear out. This type of damage is not considered a manufacture defect.

Always read the ingredients of any product you are using to clean your UnderCover tonneau. Make sure that you use only products that are safe for use with plastics. Many chemicals contain material that will permanently discolor your tonneau. This is not considered a manufacturer defect.

**OWNER RESPONSIBILITIES.** Incidental or consequential damage or loss of contents due to use, neglect, lack of maintenance, misuse, or abuse of the UnderCover tonneau cover is the sole responsibility of the truck owner. Materials such as 3M ScotchCal or Clear Shield protective films may be used to help prevent possible paint damage. Ask your dealer for other recommendations. Paint damage to your truck is not covered under this warranty. When operating your truck always keep your cover in the locked position, unexpected heavy winds could lift the cover and cause damage to both your truck and tonneau.

**REPAIR AND REPLACEMENT.** In the event that your UnderCover tonneau is found to be defective under the terms of this warranty, it is at the discretion of E. D. Industries, Inc. to repair or replace the defective part. All repairs must be made by an authorized UnderCover dealer or under direction by the factory. In the case of either event, E. D. Industries, Inc. is not responsible for any transportation costs associated with the warranted claim.

**MAINTENANCE & CARE.** The ABS polymer body of your UnderCover requires only periodic cleaning with mild car wash soap. ONLY USE CLEANERS, WAXES OR PRODUCTS THAT ARE LABELED "Safe for use on plastics". Do not let chemicals or substances come into contact with your UnderCover, unless labeled "safe for plastics". Avoid use of all abrasive type cleaners as they may dull the finish. Be sure that products such as OFF or other insecticides do not get on the cover from contact with your hands or other parts of your body. This could cause serious damage and discoloration.

**CAUTION.** Always inspect your truck periodically for rubbing. If you notice rubbing, immediately remove your cover and contact your dealer. An adjustment to your hinge may be necessary to prevent further damage. Paint damage is not covered under the terms of this warranty. It is the responsibility of the truck owner to report any damage that is occurring to your dealer. This will greatly limit any damage and make needed repairs less extensive.
