

CT3 Checkpoint Friendly Mobile Lite 15.4" Wheeled Case

CODi Checkpoint Friendly cases are designed to save time and eliminate hassle while navigating airport security. The CT3 Mobile Lite feature two distinct compartments hinged by military grade ballistic nylon, which allow the case to lie flat while passing through airport x-ray machines and eliminate the need to remove the laptop from the case. Travelers can simply grab the case from the conveyor with one hand and go - the case secures itself with velcro between the compartments.
