METAL FRAME MAINTENANCE

RST metal furniture is designed to require minimum maintenance. Metal frames should be kept clean. Do not let dirt build up on the metal frames. Cleaning with mild soap and water, and seasonal touch-up of any scratches, chips or occasional rust seepage from crevices or hidden, unfinishable surfaces inherent in some ornate designs is all that is required. Touch-up pens in matching frame colors are available through your retail dealer. **Never leave furniture standing in water.** To keep your furniture looking its best, you may wish to store or cover your furniture when not in use for an extended period of time.

CUSHION CARE

RST uses quality 100% solution dyed acrylics or acrylic/polyester blended fabrics, and only the finest outdoor foam and fiber fillings. Fabrics have been treated to resist stains and water before leaving the factory. Regular cleaning with mild soap and water using a sponge or soft scrub brush is all that is required. Pillows and cushions should be stored in a deck-box or closet when not in use to prevent fading which is an inevitable result of UV exposure.

NATURAL AND FAUX STONE TOPS

All RST natural stone table tops, which includes Tumbled Marble, Polished Marble and Granite, are treated at the factory with an impregnating sealer that penetrates deep into the porous surface providing a long lasting barrier that locks out oils, water, stains and dirt.

- Spills should be wiped up quickly to avoid any staining on the surface. Regular cleaning with mild soap and water with a sponge or soft scrub brush is all that is required.
- Regular residential use should not require resealing for at least 2 to 4 years.
- Natural stone tops will fade in direct sunlight over time. This fading is a natural process and will be more noticeable on brightly colored stones and polished marble.
- Stone tops may be re-polished professionally, and always require resealing after polishing.
- Storing your natural stone top(s) when not in use for extended periods of time is recommended.
