# TEMPUR-PEDIC® REINVENTED

When we created the world's first body-adaptive mattresses and pillows 25 years ago, we thought it couldn't get any better.

We were wrong.

Our new series are more innovative, more responsive and more personalized than ever. Thoughtfully designed, expertly engineered and rigorously tested against standards that didn't even exist until we created them.

Because nothing compares to Tempur-Pedic®.

This isn't memory foam. It's an advanced combination of materials that adapt and respond to your body's unique needs throughout the night — from the moment you lay down to the moment you rise.

So you can fall asleep faster. That's why more people recommend us to their friends and family than any other brand. You trust us to help you...

Fall asleep faster.

Stay asleep longer.

Relax more deeply.

And wake up to seize the day.

**This sleep is innovation.**

**This sleep is power.**

**This sleep is Tempur-Pedic®.**

# WELCOME

This year, Tempur-Pedic® will bring restorative, rejuvenating sleep to consumers in a new, revolutionary way.

Use this guide to navigate our latest innovation — from the overall vision down to in-depth product details.

# PUTTING THE CONSUMER FIRST

The reinvented Tempur-Pedic® wasn't born from the vision of a handful of business people.

It was born from listening to thousands of mattress consumers who are yearning for simplification, consistency and authenticity in the mattress buying process, and for brands that can truly deliver on innovative sleep experiences.

Based on these insights, our approach to updating our product architecture over the next 12 to 18 months is squarely consumer-first.

Each model clearly communicates a simple and compelling value proposition, with purposeful benefits designed to help our consumer find the Tempur-Pedic® that's right for them.

## KEY CONSUMER TRENDS IMPACTING NEW PRODUCT ARCHITECTURE

- **SIMPLIFICATION & CONSISTENCY**  
Clear platforms offering unique, consumer-driven benefits enable easier path to purchase.
- **CONSUMER-LED LANGUAGE**  
Ease our consumers' mattress buying journey by being clear, authentic and relatable.
- **INNOVATION QUOTIENT**  
Ensure we're delivering industry-leading innovation at every price point.

# WHY TEMPUR-PEDIC®? BETTER SLEEP.

We're here to help you sleep better than ever.

## EASIER

Tempur-Pedic® mattresses absorb the force of your body and its pressure points to reduce tossing and turning—so you can relax more fully into your sleep.

## DEEPER

Tempur-Pedic® mattresses dramatically reduce motion transfer between you and your partner. So you can rest undisturbed—and rejuvenate more deeply.

## FASTER

Tempur-Pedic® mattresses adapt and conform to your body's unique needs throughout the night. So you fall asleep faster, stay asleep longer—and wake up feeling powerful.

## COOLER

Tempur-Pedic® mattresses feature an exclusive system of integrated cooling technologies designed to keep you cool and comfortable—so you wake up feeling refreshed.

# WHY TEMPUR-PEDIC®? CONTINUOUS INNOVATION.

TEMPUR® Technology is a proprietary, one-of-a-kind material that we've evolved for decades to precisely adapt to your unique body, reduce motion transfer, and relieve pressure points.

Unlike ordinary memory foam, TEMPUR® Technology's precision-engineered cellular structure immediately and precisely adapts to your weight, shape and temperature. While your body heat causes the material to soften, it continuously adapts to your shape while you sleep.

Designed by our in-house experts, every Tempur-Pedic® mattress is a work of human innovation. We understand the unique properties of every material in our toolbox and how to combine them. Hundreds of combinations are tested until we achieve the mattress that will give you a sleep experience unlike anything else.

## THE TEMPUR-TOOLBOX™

We've developed five unique versions of TEMPUR® Technology for specific sleep experiences. All of the materials precisely respond to your temperature, weight, and shape for truly personalized comfort and support.

### ORIGINAL TEMPUR® - *Legendary*

Originally formulated to absorb the G-Force of NASA astronauts traveling into space and then perfected by us for sleepers — it's as comfortable and supportive as it is iconic.

### TEMPUR-ES® - *Extra Soft*

The tighter, slightly rougher cell structure of TEMPUR-ES® creates a softer feel that works in combination with other layers to support and relax.

### TEMPUR-HD® - *High Density*

Our highest density material is also our most personalized sleep experience — with more surface area adapting to your body, precisely where and when you need it.

### TEMPUR-Climate™ - *Maximum Breathability*

Distributes body weight and allows excess heat to leave the mattress with its open, breathable cell structure. It is an integral component of our Breeze® Technology.

NEW

### TEMPUR-APR™ - *Advanced Pressure Relief*

Our latest innovation and our most pressure-relieving material ever — made for deeper, more rejuvenating sleep.

# SMARTCLIMATE® SYSTEM VS. SMARTCLIMATE® DUAL COVER SYSTEM

We know. It's confusing.

We're recycling an old feature name for a new feature name. But on our mission to be as consumer-centric as possible, it was clear that "SmartClimate®" had the strongest appeal among our audience. Use the guide on the right to differentiate between the two technologies in 2018.

## SMARTCLIMATE® SYSTEM

*Available in Luxe and Elite models (excluding Breeze) through the end of 2018.*

A top layer of moisture-wicking fabric draws moisture away, while an inner layer provides cool-to-touch comfort.

### Top Layer

The super-soft cover is moisture-wicking and durable, night after night. It zips off and on so it's simple to wash or replace.

### Inner Layer

Interlock panel is infused with Phase Change Material for a cool-to-touch feel.

## SMARTCLIMATE® DUAL COVER SYSTEM

*Available in TEMPUR-ProAdapt™ Series starting in 2018.*

Next-generation technology featuring a zip-off, cool-to-touch outer layer and super-stretch inner panel for convenience and comfort.

### Removable, Washable Cooling Cover

The industry's first removable, machine-washable cooling cover. Crafted from ultra-high weight molecular yarn, our premium knit cooling cover moves heat away from your body and away from the mattress. Providing cool-to-touch comfort that lasts wash after wash.

### High-Stretch Performance Panel

Inspired by athletic apparel. Designed for comfort. Lightweight and breathable, our high-stretch performance panel was designed to enhance the pressure-relieving power of your mattress.

# SMARTCLIMATE® DUAL COVER SYSTEM VS. BREEZE® TECHNOLOGY

In 2018, a demonstrable and competitively superior cool-to-touch feel will come standard on all TEMPUR-Adapt® and TEMPUR-ProAdapt™ models. But that likely won't be enough for true hot sleepers.

TEMPUR-Breeze® continues to be the industry's leading solution for hot sleeping—a truly integrated system of cooling technologies you can't find anywhere else.

## SMARTCLIMATE® DUAL COVER SYSTEM

*Available in TEMPUR-ProAdapt™ Series starting in 2018.*

Next-generation technology featuring a zip-off, cool-to-touch outer layer and super-stretch inner layer for convenience and comfort.

### **Removable, Washable Cooling Cover**

The world's first removable, machine-washable cooling cover. Crafted from ultra-high weight molecular yarn, our premium knit cooling cover moves heat away from your body and away from the mattress. Providing cool-to-touch comfort that lasts wash after wash.

### **High-Stretch Performance Panel**

Inspired by athletic apparel. Designed for comfort. Lightweight and breathable, our high-stretch performance panel was designed to enhance the pressure-relieving power of your mattress. Constructed from premium fabric that's as soft and touchable as it is durable.

## BREEZE® 2.0 TECHNOLOGY

*Available through the end of 2018.*

Only TEMPUR-Breeze® mattresses use an integrated system of technologies to keep you cool while you fall asleep. So you fall asleep cool and wake up feeling refreshed.

### **PureCool™ Comfort**

Exclusive advanced-formula cooling material infused into the Comfort Layer of TEMPUR® Technology for cooling comfort you can feel.

### **Performance Cooling Cover**

Premium performance fabric cover that's lightweight, breathable and infused with innovative cooling technology to help create a cool-to-touch sleeping surface.

### **TEMPUR-Climate™ Material**

Advanced formulation of TEMPUR® Technology used in the Support Layer to provide support, distribute body weight and allow excess heat to leave the mattress.

### **Ultra-Breathable Design**

Ultra-breathable Comfort and Support Layers, specially designed to allow heat and humidity to flow away from the body.

# DRIVING PRODUCT MIX

It's no surprise that 2018 will be a "transition year" for the Tempur-Pedic® product lineup as we introduce TEMPUR-Adapt® and TEMPUR-ProAdapt™ Series and maintain current Luxe, Elite and Breeze distribution.

During this time, it's critical to understand the step-up between new and current models in order to help your customers navigate our product offerings and find the bed that's right for them.

This tipping point lies in the step-up story between the new TEMPUR-ProAdapt™ models (\$2799) and current Luxe models (\$3799).

While the TEMPUR-ProAdapt™ models feature new and exciting technology, the Contour Rhapsody Luxe and Cloud Luxe models offer significantly superior features and benefits.

# POWER BASES & FOUNDATIONS

You can adjust to anything.

Let your bed adjust to you.

Tempur-Pedic's all-new lineup of premium power bases lets you put yourself in the best position to sleep, sit, read, work or watch TV—anything. Advanced features from the most recommended name in sleep, like the exclusive PerfectSeat™ ergonomic relaxation setting and QuietMode™ anti-snore technology.

It's all part of a holistic sleep system to give you ultra-customized, powerful sleep.

POWER BASES

# TEMPUR- Ergo® Extend

REMOTE  
CONTROL

**TEMPUR-Ergo® Extend** is Tempur-Pedic’s most elite power base, combining premium technologies like the **QuietMode™** and **PerfectSeat™** technology to create the ultimate addition to a holistic sleep experience.

**QUIETMODE™**

Gently tilts your mattress to an anti-snore position

**PERFECTSEAT™**

Exclusive Tempur-Pedic® Technology that optimizes the shape of your mattress so you can relax in a more natural position

**WIRELESS REMOTE**

Features one-touch preset buttons and backlit, soft-touch function keys so you can adjust in the dark

**HEAD AND FOOT LIFT**

Gives you control of your sleeping space, with nearly unlimited head and foot lift positions, for reading, watching TV or working

**PILLOW TILT**

Enhance your Head Lift with a slight tilt around your neck

**ZERO GRAVITY PRESET**

Elevates your head and feet to closely simulate weightlessness and help take the pressure off your back while you sleep

**FOUR-ZONE MASSAGE**

Intensify your mattress massage with four massage zones — two at the head and two at the feet — and three levels of intensity

**OTHER FEATURES:**

- Adjustable Legs
- Underbed Lighting
- USB Ports

## FOUNDATION & BASE CARE INSTRUCTIONS

### Fabric Care:

To prolong the life of your fabric, protect from direct sunlight whenever possible. For spot cleaning, wipe area with a light damp sponge or vacuum with a soft brush attachment to remove particles. Keep at a minimum of 30cm (12 inches) away from direct heat sources. For deeper cleaning, blot liquid spills with a clean dry cloth.

Wipe with a clean cloth dampened with warm water. Do not wet excessively. A soft bristle brush may be used to remove ingrained soil. Avoid scratching by gentle brushing. Wipe with a clean cloth dampened with warm water to remove residues after brushing. Dry in shade away from direct heat.

Weights are product only and do not include packaging. King and CA King foundations and bases are not available.

## PILLOWS AND ACCESSORIES

Everybody has different needs. That's why we design pillows in a range of profile heights and comforts, so you can find a pillow that uniquely adapts to your head, neck and shoulders.

We design pillows for the way you sleep...
