Two screens are better than one!

A study by the University of Utah demonstrated that worker productivity increased with the use of two displays compared to using just one.

Productivity benefits: multi-monitor vs. single display

- 33%** Fewer errors
- 18%** Faster in errorless editing of multiple tasks
- 16%** Faster edits throughout task
- 10%** More errorless edits generated
- 7%** Faster to perform tasks
- 6%** Quicker to access tasks (opening, sizing, aligning windows, etc.)

Adjustable Keyboard Trays

The Keyboard Tray you need.
The features you want.
3M Adjustable Keyboard Trays offer a broad line of solutions with innovative features and thoughtful design to fit almost any workstation environment.

AKT150LE Easy Adjust Keyboard Tray

AKT60LE Knob Adjust Keyboard Tray

*Antimicrobial product protection
Gel-filled wrist rests with antimicrobial protection inhibits the growth of microorganisms, such as bacteria, on the product surface, that can cause stains, odours and product degradation.

†Battery Saving Mousepad Designs Products identified by this symbol feature 3M™ Precise™ Optical Mousing Surfaces with battery saving designs which extend the battery life of wireless optical mice up to 75%. Our lab testing has shown that these surfaces draw less current and thus offer 75% more battery life. The lab tests were done using mice from the leading manufacturers in the marketplace (Microsoft and Logitech) in conjunction with batteries from the leading battery manufacturers in the US (Energizer, Duracell and Rayovac). Our battery saving mousing surfaces feature the 3M micro-textured technology used to make 3M™ Precise™ Optical Mousing Surfaces.

3M™ Keyboard Trays are manufactured using preconsumer recycled material. The ♻️ and corresponding number indicates the percentage of recycled content by volume in a given product.

Choose the 3M™ Keyboard Tray that's right for you in 2 easy steps:

1 Select the arm type and track length

- Corner workstations require a long track – 21.75-23"
- Regular shallow workstations (18-22" under-desk depth) require a short track – 17-17.75"
- Regular deep workstations (23" + under-desk depth) can accept short or long-tracked keyboard trays

Sit/Stand Easy Adjust Arm

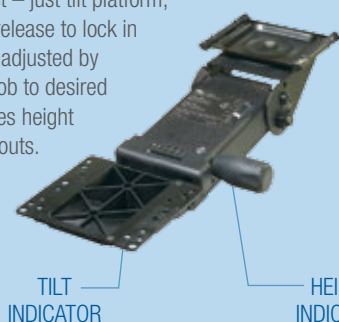

Easy to adjust, raises up to 10" above mounting surface for sitting for standing posture for optimal ergonomic benefit.

23" Track
Fits Corners

Easy Adjust Arm

Easy to adjust – just tilt platform, adjust, then release to lock in height. Tilt is adjusted by dialing tilt knob to desired angle. Includes height and tilt read-outs.

Knob Adjust Arm

Knob adjusts both height and tilt. Just loosen knob, set height and tilt, then re-tighten. While more awkward to adjust, simple design is cost effective. AKT65LE can be installed without tools!

KP200LE Highly Adjustable Platform

(Lifetime Warranty)

Sturdy platform has patented left/right lateral adjustment for getting the keyboard exactly where you want it. Articulating mousing platform adjusts up, down, left, right, forward and back, and tilts forward and back, too.

KP100LE Standard Platform

(5 year Warranty)

Standard all-in-one platform with wooden construction minimizes bouncing. Mousing surface can be placed left or right.

Wrist Rest Technology

Gel-filled comfort

3M's patented gel technology creates a wrist rest that is firm enough to provide the support you need, but soft enough for optimal comfort. 3M™ Gel-filled wrist rests are guaranteed not to leak and are puncture-resistant under normal use. All 3M™ Gel Wrist Rests are warranted for at least 1 year.

Antimicrobial protection

3M™ Gel Wrist Rests with black leatherette covers feature antimicrobial protection which inhibits the growth of microorganisms on the product surface that can cause stains, odors and product degradation.

Recycled content

3M™ Gel Wrist Rests with black leatherette coverings are manufactured using preconsumer recycled material. The and corresponding number indicates the percentage of recycled content by weight in a given product. All 3M™ Wrist Rests are packaged using recyclable materials for less environmental impact.

3M™ Precise™ Battery Saving† Mousing Surfaces

With a micro-grooved surface, the 3M™ Precise™ Battery Saving† Mousing Surface helps extend the life of wireless mice up to 75%†. Dually beneficial, this surface also enhances the precision of optical mice at fast speeds.

The way you hold your wrists while working at a keyboard

directly impacts your level of comfort for an extended period of time. Placing a soothing, comfortable 3M™ Wrist Rest in position helps you stay comfortable throughout your workday and helps contribute to the health of your hands and wrists. 3M™ Wrist Rests offer a variety of soft, supple materials and adjustable platforms to allow for precise positioning and optimal comfort.

Gel Wrist Rest Platforms

Sleek in appearance and operation, these platforms are designed with tapered wrist rests and rounded corners for comfort beyond compare. Workstation Guidelines

For Optimal Personal Comfort

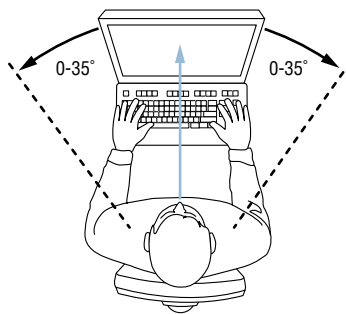

Use these guidelines to set up your workspace to ensure good ergonomic posture and to attain optimal personal comfort.

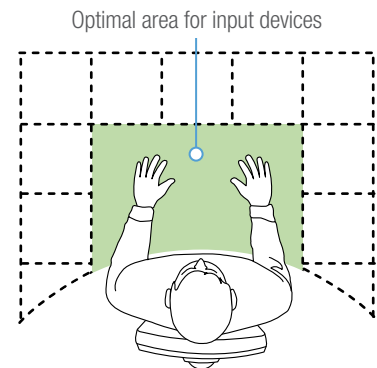

Recommended Positioning

To avoid eyestrain, position your monitor within a comfortable viewing distance, at or below eye level, and within your 60° viewing field.

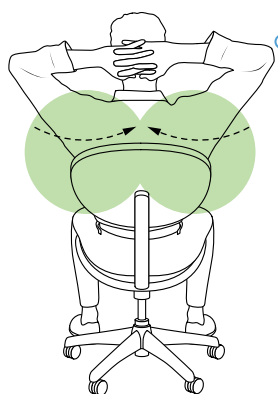

Position source documents in line with your screen, and no more than 35° to either side, to avoid excessive turning or bending of your neck.

Place input devices within the recommended area to avoid strain on your wrists, arms and hands.

Exercises

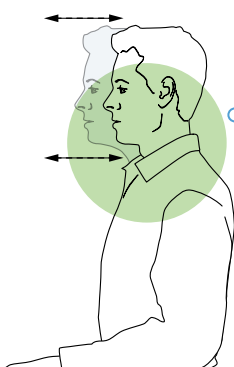

To Promote Ergonomic Comfort

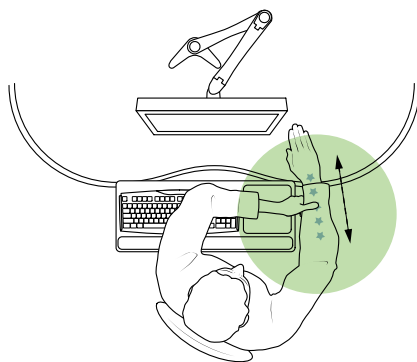

Executive Stretch - for upper back, chest and shoulders
Sit upright in your chair. Clasp your hands behind your head, keeping your elbows in line with your ears. Press your elbows back as far as possible, squeezing your shoulder blades together. Relax, then repeat 3 times.

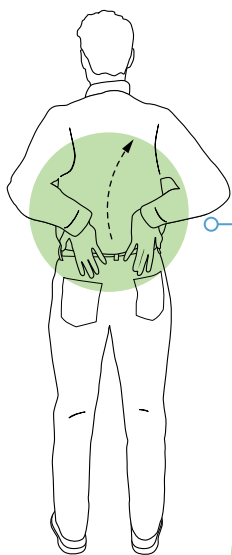

Focusing Technique - for eye relaxation
Focus on an object at least 20' away or as far from your work area as possible, then move your eyes around and look at other objects. Look back at your computer screen. Repeat throughout the work day.

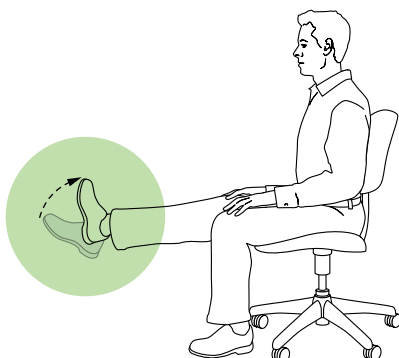

Neck Glide - for neck
Sit comfortably upright and look straight ahead. Keeping your head and ears level, glide your head back as far as it will go. Now glide your head forward. Repeat 3 times.

Arm Massage - for forearms
Sit at a desk or table. Place your arm in front of you with your hand palm-down. Use your thumb to press firmly on your opposite arm, moving it slowly from your wrist to elbow and back down. Repeat 3 times.

Reverse the Curve - for back and hips
Stand with your feet slightly apart. Place your palms in the curve of your lower back. Keep your chin down and focus on an object in front of you. Bend backward, supporting your lower back with your hands. Don't lock your knees. Hold for 5 to 10 seconds. Repeat 3 to 5 times.

Leg Extension - for legs and lower back
Sit in a chair and straighten one leg directly in front of you. Flex your foot by pointing your toes toward the ceiling. Flex hard for 5 seconds, then release. Repeat 3 to 5 times. Return foot to floor and switch legs.

There are many possible causes for physical discomfort. If you are experiencing symptoms that persist for more than two weeks or are severe enough to interfere with your job or personal activities, consider seeking medical assistance.

*Antimicrobial product protection:

Gel-filled wrist rests with antimicrobial protection inhibits the growth of microorganisms, such as bacteria, on the product surface, that can cause stains, odors and product degradation

** Use of this product helps contribute to LEED® Green Building Certification EB O&M Credit 2.2 Sustainable Purchasing: Durable goods because 3M Gel Wrist Rests with black leatherette coverings (LE) contain a minimum of 20% preconsumer recycled content, exceeding the recycled content required in Credit 2.2.

Battery Saving Mousepad Designs Products identified by this symbol feature 3M Precision Optical Mousing Surfaces with battery saving designs which extend the battery life of wireless optical mice up to 75%. Our lab testing has shown that these surfaces draw less current and thus offer 75% more battery life. The lab tests were done using mice from the leading manufacturers in the marketplace (Microsoft and Logitech) in conjunction with batteries from the leading battery manufacturers in the US (Energizer, Duracell and Rayovac). Our battery saving mousing surfaces feature the 3M micro-textured technology used to make 3M Precision Optical Mousing Surfaces.
