## Care and Maintenance

- Though its powder-coated finish is rust-resistant, steel is prone to rust over time with exposure to the elements. In case of rust or scratches, lightly sand the affected area and apply touch-up paint. To maintain the finish periodically apply wax with a soft cloth.
- Tabletop ceramic tiles must be stored during fall and winter months in a dry location where temperatures will not fall below 32°F (0°C). Always use an umbrella base to secure umbrella. Ensure the “o” ring is in place in the umbrella hole in the tile top before inserting umbrella. Make sure umbrella is in the closed position when not in use and during high winds. Use furniture covers or store indoors during cold or inclement weather.
- Wash frames with a mild solution of soap and water; rinse thoroughly. Do not use bleach or solvents.
