Approved by the California Department of Justice as meeting their standards for firearm safety.

2-way locking with 1" live action locking bolts—up to 5 locking points.

Tested and verified to be fire resistant for 30 minutes up to 1400° F by ETL—an independent testing lab.

Select safes are fully convertible with adjustable shelves. Fully carpeted interiors.

Electronic lock includes operational lights for open, low battery warning and incorrect entry. There is a time out period after 3 incorrect attempts. Batteries are easily accessible from the front. A drill resistant, hardened steel plate is located behind the lock for greater security. A backup key is included.

3-number combination lock with a drill resistant, hardened steel plate behind the lock provides greater security.

Exteriors have an epoxy paint finish with chrome or gold accents and silk-screens on the door.

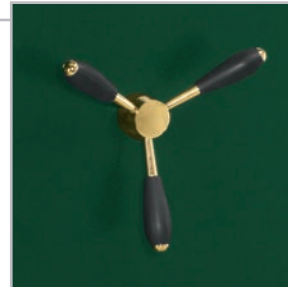

Not fire rated for storage of CDs or other electronic devices. Fastening hardware is included with each safe.

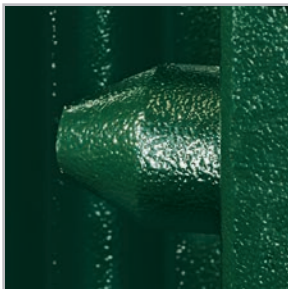

NEW
Retail POS

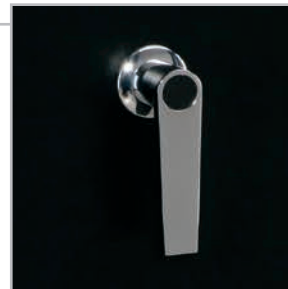

Large steel locking bolts.

The 36 gun safes include a large steel 3-spoke handle with rubber grips that rotates to extend and retract live action locking bolts.

Steel dead bolts on the hinge side of the safes provide added security.

The 8, 14 and 24 gun safes include a large steel handle.

Patented Barrel Rests and Standoffs

- Provide optimal storage for long guns—especially scoped rifles.
- Sized to accept rifles as well as side-by-side shotguns
- Keeps scoped rifles away from walls and provides for one position storage.
- Greater durability

Reinforced steel doors are filled with fire retardant material. Door stripping expands and seals when exposed to fire.
