

CERAMIC TOWER HEATER

Model 5775

This winter when it is cold outside, keep it warm and cozy inside with our sleek Ceramic Tower Heater! Designed for home or office, this Ceramic Tower Heater takes up very little space yet can powerfully warm an entire room. With its electronic thermostat and two comfort settings, keeping the desired temperature is simple. The oscillation feature spreads warmth evenly throughout the room. An energy-saving auto-off timer is included for your convenience.

- Widespread Oscillation for Broad Area Coverage
- Electronic Thermostat for Personalized Comfort
- Auto-off Timer
- Ideal for Home or Office
- Two Heat Settings:
 - High – 1500W/5118BTU
 - Low – 900W/3070BTU
- Built-In Safety Features
 - Self-Regulating Ceramic Element
 - Automatic Overheat Protection
- No Assembly Required
- ETL Listed
