Handheld and Fixed Head Combo Kit

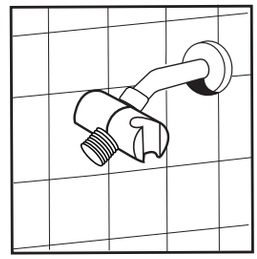

Installation Instructions/Warranty Information

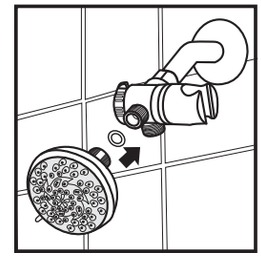

1. Remove old showerhead with wrench. Clean threads of shower arm.

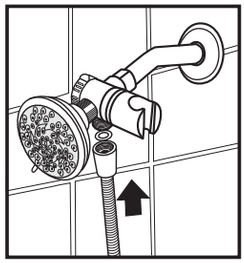

2. Apply 2 revolutions of thread tape to threads of shower arm. Make sure the tape is applied tightly in a clockwise direction.

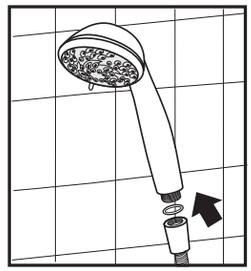

3. With screen washer preassembled in diverter bracket, hand tighten diverter bracket to shower arm. Position diverter bracket as shown in picture and then wrench tighten 1/4 turn.
Do not over tighten.

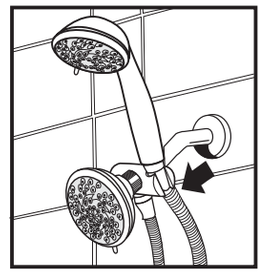

4. With washer positioned in showerhead, hand tighten showerhead to diverter bracket.

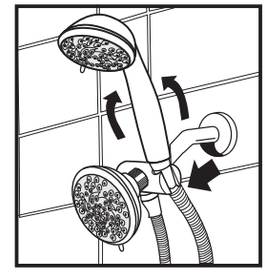

5. Place washer into one of the hose nuts and hand tighten to diverter bracket.

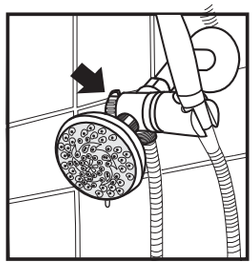

6. Put washer into nut on other end of hose and hand tighten to handheld shower.

7. Place handheld shower into bracket by slipping the hose through the bracket opening and seating the shower into the bracket. If the bracket does not maintain its position when the handheld is placed into the bracket, reposition bracket and wrench tighten another 1/4 turn.

8. To adjust position of the handheld shower, push the handheld shower back or pull it forward while you hold the diverter bracket.

9. To divert the water from one head to the other, turn the dial on the side of the diverter bracket.

NOTE:
To change the spray settings, position hand over face of showerhead and rotate while pressing thumb against tab.
