DO CHECK YOUR TIRES FOR WEAR
Always remove less from tires when they move thirty seconds of
a mile (30 miles/hour) traveling speed. All tires have three
wear indicators which appear as small threads in the tread groove
where they wear to the legal limit of 2/32” (0.0508 mm). Many wet
weather accidents occur when tires build up so little tread or nearly
As mentioned above, always consult the vehicle owner’s manual and
the vehicle manufacturer’s trend information before fitting or fitting
with the special equipment manufacturer. However, tires should
only be replaced if they have the same basic form and capacity as to:
1. By removing the tire or the wheel; or
2. By removing both the tire and wheel.
WARNING
DO CHECK YOUR TIRES FOR WEAR
ALWAYS REMOVE LESS FROM TIRES WHEN THEY MOVE 30 SECONDS
A MILE (30 MILES/HOUR) TRAVELING SPEED. ALL TIRES HAVE THREE
WEAR INDICATORS WHICH APPEAR AS SMALL THREADS IN THE TREAD
GROOVE WHERE THEY WEAR TO THE LEGAL LIMIT OF 2/32” (0.0508
MM). MANY WET WEATHER ACCIDENTS OCCUR WHEN TIRES BUILD UP
SO LITTLE TREAD OR NEARLY NO TREAD DUE TO IMPROPER MOUNTING
PROCEDURES. FOLLOW THE TIRE MANUFACTURER’S INSTRUCTIONS
AND MATCH TIRE DIAMETER TO RIM DIAMETER. MOUNT LIGHT TRUCK
RADIALS AND NON-RADIALS ON THE SAME AXLE. WHEN FITTING SNOW TIRES
FIT NEWEST TIRES ON REAR AXLE. IF RADIALS AND NON-RADIALS MUST BE
FITTED IN SETS OF FOUR, THE RADIALS AND NON-RADIALS MUST BE FITTED
ON THE SAME AXLE.

NEVER FIT TIRES TO A VEHICLE THAT HAVE LESS LOAD
CAPACITY OR INFLATION PRESSURE THAN THE ORIGINAL TIRES.

Lack of rotation, worn suspension parts, underinflation and inflation pressure instability can result in...
HIGHWAY AUTO AND LIGHT TRUCK REPLACEMENT AND LIMITED WARRANTY POLICY (EXCLUDES LIMITED RADIAL LIGHT TRUCK)

WHO IS ELIGIBLE?
You are eligible for the benefits of this Limited Warranty if you own a new Goodyear highway or light truck tire sold to you by a Goodyear Retailer. Please note that all tire dealers are not authorized Goodyear Retailers. You must present your tire(s) to a Goodyear retailer for adjustment if you are the original owner.

WHAT IS ADJUSTED?
If your tire shows covered warranty conditions due to treadwear, your tire will be replaced with a similar new Goodyear highway or light truck tire and mounted on your vehicle at no charge. (See "THE TREAD LIFE LIMITED WARRANTY" for more information.)

WHAT IF YOU ARE NOT ELIGIBLE?
If your tire shows conditions not covered by warranty your tire will have to be disposed of properly. The cost of disposal is a matter of your own control. Under no circumstances is this warranty transferable or assignable.

WHY DO YOU HAVE TO PAY FOR MOUNTING AND BALANCING?
The costs of mounting and balancing are incurred when a tire is removed from a vehicle and later replaced on a different vehicle. These costs are not the responsibility of the tire manufacturer. Under no circumstances is this warranty transferable or assignable.

WHAT IS TEMPORARY SPARE TIRE?
A temporary (spare) tire is a tire that is designed to be used temporarily in place of a regular tire until the regular tire can be serviced. Temporary tires are built to temporary treadwear standards and are not designed to carry the same type or amount of load as the regular tire.
