Read all instructions carefully before assembling and operating this product. Retain this owner's manual, do not remove any safety labels from the machine and keep the original purchase receipt for future reference.

This Power Cage was designed and built for optimum safety. However, certain precautions apply whenever you use the exercise equipment. Be sure to read the entire manual before assembling and operating this equipment. Also, please note the following safety instructions:

1. Consult your physician or other health care professionals before using the piece of equipment.
2. Always wear proper exercise apparel when using the equipment. Use care when getting on or off the unit.
3. If at any time you feel faint, light-headed, or dizziness while operating this equipment, stop exercising immediately and contact your physician. You should also stop exercising if you are experiencing pain or any kind of discomfort.
4. Keep children and pets away from the equipment at all times.
5. Only one person should use the equipment at a time.
6. Make sure your equipment is correctly assembled before you use it. Be sure all screws, nuts, and bolts are tightened prior to use. Check screws, nuts, and bolts are tight on a weekly basis.
7. Do not operate this or any exercise equipment if it is damaged.
8. Wait 2 hours after eating before using the exercise equipment. If you get nauseous, stop exercising as soon as you feel queasy.
9. This product should be placed on a flat surface when using. A mat or other covering material on the ground is recommended. For indoor use only, do not use outdoors or near water.
10. Keep hands and feet away from any moving parts. Do not insert any object into any openings on the equipment.
11. Keep loose clothes, jewelry, limbs and long hair away from moving parts.
12. Children under the age of 12 should not use this fitness equipment.
13. Children from 12 to 18 should have adult supervision.

Warning: It is highly recommend that you have assistance during the assembly of the IRONMAN strength equipment.

1. Tools for assembly:

General tools you may need for the assembling this IRONMAN strength equipment:

- Metric Allen Key Set
- Metric Wrench Set and Adjustable Wrench
- Flat Screwdrivers
- Phillips Screwdrivers
- Rubber Mallet
- Silicone Spray Oil

2. Insert bolts into the frame as illustrated in the drawing of each of the steps.
3. Hand-tighten the bolts, nuts, and screw during assembly. Hand-tightening will allow for easily aligning the parts during assembly. Tighten all the hardware once the entire unit has been completely assembled.
4. It is highly recommended that a professional installer assembles the IRONMAN strength equipment. But, with the proper assistance, the right tools, and strictly following the assembly steps, and given enough time; the assembly of the unit can be achieved without professional help.
5. Thoroughly read each step before proceeding to assemble the items of that step.
6. To aid in assembly of the equipment, the hardware pack (bolts, nuts, washer...etc.) have been presorted according to their corresponding steps. **See Hardware Pack page.**
7. When the equipment is fully assembled check all the functions for correct operation. Consult the manual if you experience any issues, or for further help please contact our service department. See page 2.

ADJUSTMENT

A. The two Bar Bell Catches (H) can be inserted into any of the holes along the Vertical Posts (B). Place them on opposite sides of the cage and at a comfortable height that will assist you during your workout.

B. The two Safety Catches (I) can be inserted into any of the holes along the Vertical Posts (B). Place them at a height that will help keep you safe during your workout.

C. The two Dip Bars (J) can be inserted on to either of the Safety Catches (I) Parts. Install the two Dip Bars (J) at a comfortable distance from each other to allow enough space for preforming dips.

The Vertical Posts (B) are numbered along their length to aid in placing the two Safety Catches (I) at equal heights on the four Vertical Posts (B).

WARNING: We recommend placing the Safety Catches (I) in an orientation that allows the Dip Bars (J) to be on the inside of the cage while performing dips.

ADJUSTMENT

SAFETY CAPS

- A. The included Safety Caps are to be used to cover the four storage posts on the Stability Beam (K) when the posts are not being used for storing workout equipment.
- B. The Safety Caps can also be plugged into the holes along the Vertical Post (B) when the Stability Beam (K) posts are being used to store workout equipment, as shown in Fig. AA-1.
- C. Keep the Safety Caps on when not in use to prevent physical harm.
