GENERAL SAFETY RULES

- Always unplug unit before assembly, disassembly or cleaning.
- Always unplug unit when not in use, when moving from one location to another and before cleaning.
- To disconnect, grip the plug and pull it from the wall outlet. Never yank the cord.
- The use of attachments not recommended or sold by the appliance manufacturer may cause hazards.
- Avoid contact with moving parts.

CAUTION

- DO NOT operate this product with a damaged cord or plug after a malfunction, or if it is dropped or damaged in any manner.
- DO NOT operate the unit in the presence of explosive and/or flammable fumes.
- DO NOT place the unit or any parts near an open flame, cooking or other heating appliance.
- DO NOT leave children unattended near the fan or leave the fan unattended while in use.
- DO NOT use outdoors.
- Always use on a dry, level surface.
- DO NOT operate if the product housing (front or rear grill or product stand) is removed or damaged.
- A loose fit between the outlet and plug may cause the plug to overheat. Have a qualified electrician replace the outlet if the plug doesn't fit properly.
- DO NOT run cord under carpeting. Do not cover cord with throw rugs, runners or the like. Arrange cord away from traffic areas so that it will not be tripped over.
- NEVER connect the unit to any power sources other than a 120 volt AC polarized outlet.
- To protect against electrical shock, this appliance is equipped with a cord having a 3-prong grounding-type plug for insertion into a proper 3-prong grounding-type receptacle. DO NOT alter the plug for use in a 2-prong receptacle. If the plug will not fit into a receptacle, have the proper receptacle installed by a qualified electrician.
