HOW TO SET UP MY DRAGON BOX

Simple Plug and Play Instructions

Connect the 4ft. gold plated HDMI cable that came with your Dragon Box to your TV. Connect the end of the HDMI port into your Dragon Box. Finally, connect the power cord to your Dragon Box and to a power source.

Power **ON** the **TV** and select **Input/Source**. Make sure that you use the HDMI cord that comes with the box and it matches correct input port selected for view.

Once powered on, you will be taken through your initial set up to select your country and language, adjust your screen size and set up your Wi-Fi or Ethernet connection.

To access the keyboard to enter the wifi password, click OK on the remote. The keyboard will appear on the bottom of the screen. The cursor will be blinking inside the GREEN password box. Enter password. Click the DONE key. Select CONNECT NOW by pressing the OK button on your remote.

Select the RETURN button on the right side of the remote to return to the HOME SCREEN.
Select the RED OTA icon to the right of KODI Media Center.
- **ROM update will appear, select DOWNLOAD (this updates firmware) (Apps 1 - 445)**
- **Blue checkmark the WIPE DATA box then select install- pause for page to load- click install again**
- **Scroll to available updates - select OK. At next prompt select DOWNLOAD (Apps 1-100)**
- **Blue checkmark the WIPE DATA box then select install**

Once you launch KODI Media Center, the most important step is:
 - Go to Video
 - Select Add Ons
 - Select DRAGON WIZARD, install and follow prompts

Now your Dragon Box is configured to start streaming Movies, PPV Streams, Sports, News, Music, TV Shows and Live Streaming Channels. This will set your unit to start streaming everything available on The Dragon Box network!

SPEED TEST (OOKLA)
Select the HOME button on the remote to return to the HOME PAGE.
OOKLA is your Speed Test app located in FAVORITE.

To run the speed test:
- Select **OOKLA**
- Select the **Cursor** button on remote then press OK to begin your test
- Click return after your speed test is complete to return to the Home Screen
10 MBPs or higher is required for your smart box to run efficiently.

THE DRAGON BOX HOME SCREEN PAGE
