

KERATIN HAIR TREATMENT (BRAZILIAN) WITH ARGAN OIL *professional instructions*

CAREFULLY read all instructions Warnings and precautions printed on the bottle and this paper prior to using the product. Please perform a sample test prior to applying the product fully on your or clients hair in order to discern undesired effects and compatibility issues. If there are other instructions on the bottle, disregard them and use the instructions below.

Not sure? Watch the Video: <http://www.keratinresearch.com/keratin-treatment-video.html>

1. Wash hair (2-3 times) with clarifying shampoo; this will enable the opening of the cuticles. Rinse well and towel dry. Don't use conditioner. Any oils or conditioner left on the hair may affect the treatment performance and penetration.
2. Blow-dry and brush the hair with medium heat until it is completely dry. You will notice its hard to comb and that is normal (it show you the clarifying shampoo was effective) Important: While blow drying use a brush or thick comb to detangle the hair, it will make it easy to work with on the next steps.
3. Comb and separate hair into 3 sections Left Right and Back.
4. Start applying the treatment product, about 1(one) centimeter from the root and all the way down, then use a fine comb spreading the product evenly to the tips or your hair verify that the hair is evenly saturated and to remove excess product. Avoid from applying on the skin/scalp. Make sure that the solution is evenly distributed throughout the hair before proceeding to the next step. Leave solution on the hair for 20 minutes and Blows-dry the hair 100% using medium heat.
5. Using a flat iron at 400-450°F (it's about 200-232°C) where 450 is for coarse hair and 400 for fine hair, use your professional judgment. Straighten the hair in combination with a Heat resistance comb. Starting at the nape, move the iron slowly from scalp to hair ends. Assuring the ends are smooth and straight. Go over the same section several times until there is almost no fumes (it may take 7-12 times depending on kind, condition of hair and part of head) sealing the keratin into the cuticle. Do not overdo since you can burn the hair use your senses it's very simple.

LAST STEP: Wait overnight and wash your hair with our Sulfate free shampoo and conditioner on regular basis. That's it! Simply enjoy your healthy, shiny straight hair. People with very curly hair may not wash hair for 3 days, anyone who desires to stay with treatment for 3 days may do so, there is no harm

MAINTENANCE: Wash hair with our matched moisturizing shampoo and conditioner to preserve your healthy and straight hair for longer period.

Miracle Moroccan Argan oil and Inverto Keratin Replenisher are excellent choices: They will add a great touch to your hair in seconds. Simply add few drops to your hair just before you blow dry it.
