## PART LIST

PART	DESCRIPTION
A	Lid handle
B	Gas strut
C	Rubber grommet
D	Power strip
E	Top chest mat
F	Top chest side handle
G	Top chest left drawer liner
H	Top chest right drawer liner
I	Top chest drawer slide
J	Lock
K	Key

## SAFETY INFORMATION

Please read and understand this entire manual before attempting to assemble or operate this product. Failure to follow may result in serious injury. Save all warnings and instructions for future reference.

## WARNING

- Do not stand or step on this product. You may fall which may cause personal injury or product damage.
- When locking a chest, close the drawers completely in order for the lock bars to work properly.
- Secure this product properly before moving it with a forklift.
- Do not attach or mount this product to a vehicle. This may cause personal injury or product damage.

## CAUTION

- Do not exceed the maximum drawer weight and total product weight, including contents. Place more than half the total load weight on the bottom cabinet when possible.
- Be careful when opening more than one drawer. The product may become unstable and tip, which may also cause personal injury or product damage.
- Be careful when closing the top chest lid, remove hands before closing.
- Do not store liquids in the unit unless they are secured in an approved container.
- Keep children and bystanders away while loading, unloading, and moving the product.
- Always use common sense and be cautious when using this product. Do not modify this product in any way.
- Follow all below information for extension cord :
  1. Do NOT insert extension cord through hole without grommet in place.
  2. Only use a three-wire extension cord with all three prongs intact. Never remove the round grounding prong.
  3. Extension cord must be connected to a 125Volt GFCI protected outlet with proper ground. If GFCI outlet is not available, use an extension cord with GFCI protection built in.
  4. Check the insulation and plugs of extension cord before using. Do NOT use cord if it is worn or damaged.
  5. Do NOT overload extension cord.
  6. Remove extension cord from the hole before moving or transporting storage chest.
  7. Do NOT connect extension cord to outlet that also supplies critical safety equipment with power.
  8. Make sure the power supply cord is unplugged before any servicing or cleaning.

## SAFETY INFORMATION

---

- Follow all below information to avoid electrical shock hazard :
  1. Do not plug cord into outlet with wet hands.
  2. Do not use this tool chest near a bathtub, a shower, or a swimming pool.
  3. Chest plugs must match the outlet.
  4. Never modify the plug in any way.
  5. Do not use any adapter plugs with earth (grounded) chest power strips.
  6. Unmodified plugs and matching outlets will reduce the risk of electric shock.
  7. Avoid body contact with earthed or grounded surfaces. There is an increased risk of electric shock if your body is earthed or grounded.

- Refer all below information for FCC rules

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**CAUTION:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## CARE AND MAINTENANCE

---

- Keep your chest in good repair by adopting a regular maintenance program.
- The use of drawer liners(included) is recommended to protect the finish inside the drawers and make the drawers easier to clean.
- Grease the casters annually using high-quality bearing grease.
- Lubricate the slides semi-annually with general purpose grease or equivalent.
- Periodically clean the drawer fronts, drawer trim, and other surfaces with a mild detergent and water.
- Remove grease and oil with a standard nonflammable cleaning fluid.

## 3-YEAR LIMITED WARRANTY

---

3 year Limited Warranty for Toolbox. This warranty excludes incidental/inconsequential damages and failures due to misuse, abuse or normal wear and tear.

This warranty gives you specific rights, and you may also have other rights which vary state to state.
