SPECIFICATIONS. 40

Important Safety Instructions

- Read these instructions – All the safety and operating instructions should be read before this product is operated.
- Keep these instructions – The safety and operating instructions should be retained for future reference.
- Heed all warnings – All warnings on the appliance and in the operating instructions should be adhered to.
- Follow all instructions – All operating and use instructions should be followed.
- Do not use this apparatus near water – The appliance should not be used near water or moisture – for example, in a wet basement or near a swimming pool, and the like.
- Clean only with dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacture's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Do not defeat the safety purpose of the polarized or grounding plug. A polarized plug has two blades with one wider than the other. A grounding plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched particularly at the plugs, convenience receptacles, and at the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer.
- Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart or rack is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

- Unplug the apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified personnel. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- Please keep the unit in a well-ventilated environment.
- WARNING: To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The apparatus shall not be exposed to dripping or splashing and that objects filled with liquids, such as vases, shall not be placed on apparatus.
- WARNING: The wall socket plug is used as disconnect device, the disconnect device shall remain readily operable.
- WARNING: The batteries shall not be exposed to excessive heat such as sunshine, fire or the like.

- This lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of non-insulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.
- To reduce the risk of electric shock, do not remove cover (or back) as there are no user-serviceable parts inside. Refer servicing to qualified personnel.
- The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance instructions in the literature accompanying the appliance.
- ⧈ This equipment is a Class II or double insulated electrical appliance. It does not require a grounded connection.

Safety Information

To ensure reliable and safe operation of this equipment, please read carefully all the instructions in this user guide, especially the safety information below.

Electrical safety

- The TV set should only be connected to a main power supply with voltage that matches the label at the rear of the product.
- To prevent overload, do not share the same power supply socket with too many other electronic components.
- Do not place any connecting wires where they may be stepped on or tripped over.
- Do not place heavy items on them, which may damage the leads.
- Hold the main plug, not the wires, when removing from a socket.
- During a thunderstorm or when not using the television for long periods, turn off the power switch on the back of the television.
- Do not allow water or moisture to enter the TV or power adapter. Do not use in wet, moist areas, such as bathrooms, steamy kitchens or near swimming pools.
- Pull the plug out immediately, and seek professional help if the main plug or cable is damaged, liquid has spilt onto the set, if accidentally exposed to water or moisture, if anything accidentally penetrates the ventilation slots or if the set does not work normally.
- Do not remove the safety covers. There are no user serviceable parts inside. Trying to service the unit yourself is dangerous and may invalidate the product's warranty.
  Only qualified personnel should service this apparatus.
- To avoid battery leakage, remove exhausted batteries from the remote control, or when not using for a long period.
- Do not break open or throw exhausted batteries in a fire.

Physical safety

- Do not block ventilation slots in the back cover. You may place the TV in a cabinet, but ensure at least 5 cm (2") clearance all around.
- Do not tap or shake the TV screen, this may damage the internal circuits. Take good care of the remote control.
- To clean the TV use a soft dry cloth. Do not use solvents or petroleum based fluids.
- Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus (including amplifiers) that produce heat.
- Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong, the wide blade, or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched particularly at plugs.
- Unplug the apparatus during lightning storms or when unused for long periods.
- Refer all servicing to a qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled, or objects have fallen into the apparatus, has been exposed to rain or moisture, does not operate normally, or has been dropped.

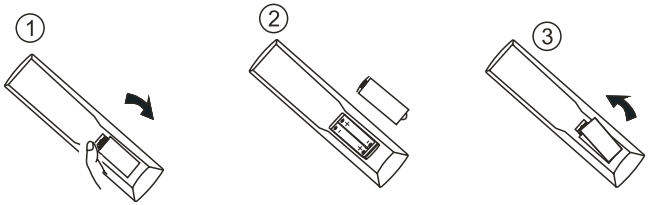
22. FAV+.Next favourite channel.
23. CC Press repeatedly to activate and/or set the CC (Closed Caption Display) modes.
24. FAV. Show the list of favorite channels.
25.FAV-.Previous favourite channel.

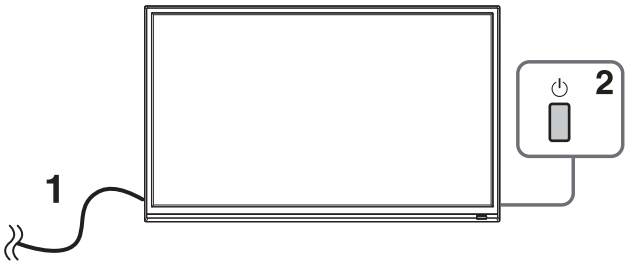
Install the Batteries

If the remote control fails to operate the TV functions, replace the batteries in the remote control.

1. Open the battery cover.
2. Insert two size-AAA batteries. (Place the batteries with their terminals corresponding to the (+) and (-) indications in the battery compartment.)
3. Replace the cover.



Initial Setup



1. Connecting your TV on the poweroutlet;
2. Press the POWER button on the remote to turn on the TV in green for the LED light.
CAUTION:Always disconnect the TV from the power outlet when the TV will not be used for a long period of time. The POWER button on the front panel is only used for switching the TV into standby, it does not disconnect the device from the main voltage. To completely disconnect the main voltage, please remove the power plug from the socket.
3. Press the key▼/▲/◄ / ►and following the picture as bellow to operate the subject.

NOTE:
The picture is for reference only.

Chromecast built-in

Turning on your TV for the first time

The first time you turn on your TV, the initial setup wizard opens. The wizard guides you through setting up your TV
including the Chromecast built-in setup, menu language, time zone, TV signal source, and the channel list.

- If you are using an Android mobile device, go to Using an Android mobile device.
- If you are using an iOS (Apple) mobile device, go to Using an iOS (Apple) mobile device.

Using an Android mobile device

1 Make sure that you:

- Install the remote control batteries.
- If you plan to watch standard broadcast TV channels using a cable box, satellite box, or external antenna, connect an antenna, cable TV, or satellite TV,please press SOURCE to select TV.
- Connect the power cord.
- Know the Wifi network name and password if you are using a wireless network to set up your TV.

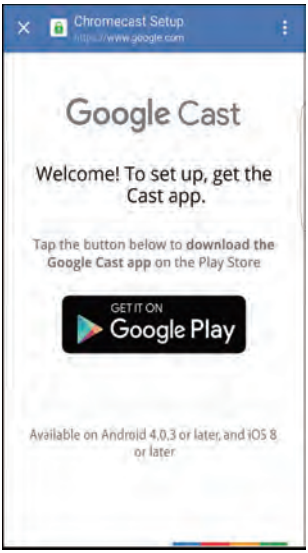
Note

If you want to use a wired connection instead of Wifi to set up your TV, connect your TV to an Internet router using the LAN jack. For more information, see Connecting a network router on page 10.

2 Turn on Wifi on your mobile device and connect it to your home Wifi network.

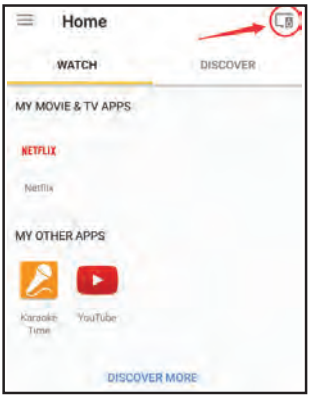
3 Press ⏻ (power) to turn on your TV. The Set me up screen opens.

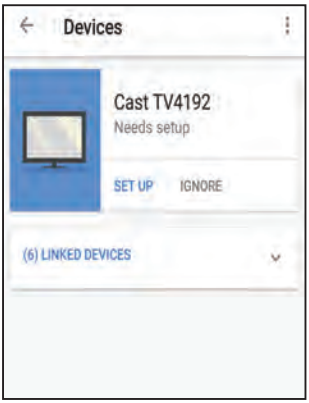
4 Type google.com/cast/setup in the search bar of your device's browser.



5 Tap ACCEPT to agree to the Terms of Service and Privacy Policy.

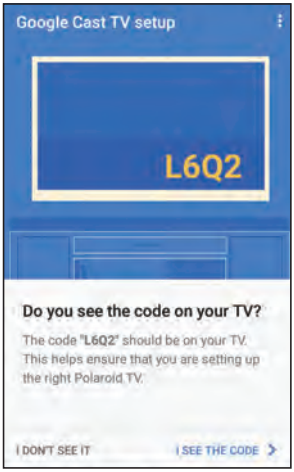
6 Touch DEVICES and choose the TV with Google Home you want to set up. Touch SET UP.





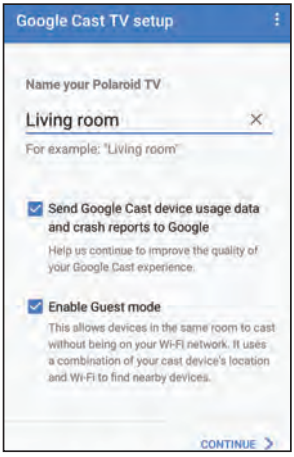
7 Touch CONTINUE.

8 Make sure the code on your device matches the code on your TV.
Touch I SEE THE CODE.



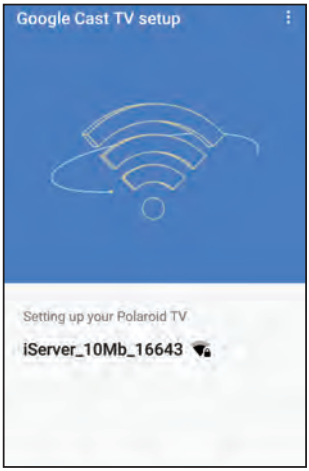
9 Optional: Change the name of your TV with Chromecast built-in to something distinct by deleting the current name and typing in a new name.

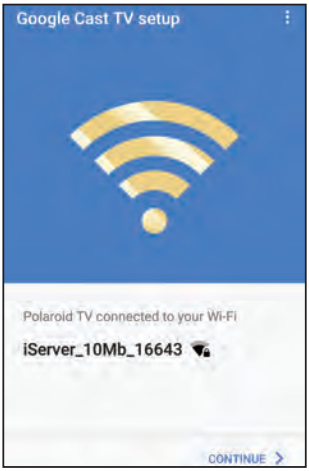
Note: Guest mode and Send Chromecast built-in device usage data and crash reports to Google are enabled by default. If you don't want to enable them, touch the check marks next to their corresponding prompts. Touch CONTINE.



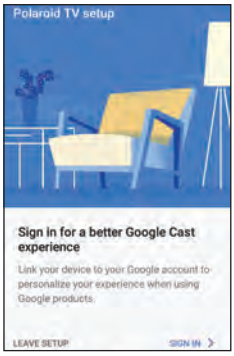
10 Choose the Wi-Fi network you want to connect to your TV with Chromecast built-in. Enter password.Touch CONTINUE.

11 If your TV with Chromecast built-in needs an update, it will automatically update at this time and will let you know when the update is complete.Touch CONTINUE.





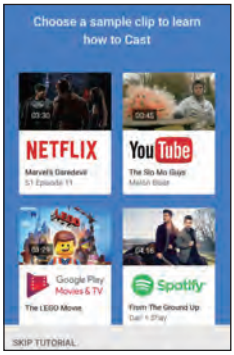
12 Touch SIGN IN.

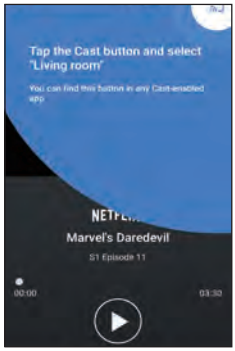


13 Touch CONTINUE.

14 Touch LEARN HOW TO CAST.

15 Choose a sample clip to learn how to Cast.





Important Note:please make sure yourAndroid/IOS device is connected to the same wifi network as the tv.

Casting a video, movie, or TV show

After you set up Chromecast built-in on your TV and mobile device, you are ready to cast videos, movies and TV shows.
1 On your mobile device, make sure that Wifi is turned on.
2 Open a Chromecast built-in-enabled app.
3 Tap the video, movie, or TV program you want to cast, then tap (Chromecast built-in button).
4 Tap the device you want to cast to.
5 To stop casting, tap , then tap Stop casting.

Using an iOS (Apple) mobile device

1 Make sure that you:
• Install the remote control batteries.
• If you plan to watch standard broadcast TV channels using a cable box, satellite box, or external antenna, connect an antenna, cable TV, or satellite TV.
• Connect the power cord.
• Know the Wifi network name and password if you are using a wireless network to set up your TV.

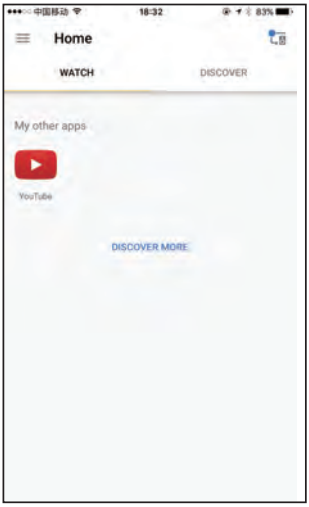
Note
If you want to use a wired connection instead of Wifi to set up your TV, connect your TV to an Internet router using the LAN jack. For more information, see Connecting a network router on page10.

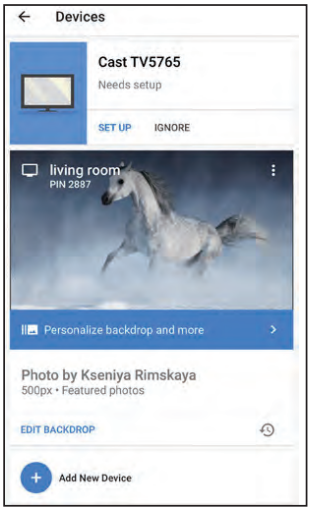
2 Turn on Wifi on your mobile device and connect it to your home Wifi network.
3 Press (power) to turn on your TV. The Set me up screen opens.

4 Type google.com/cast/setup in the search bar of your device's browser.

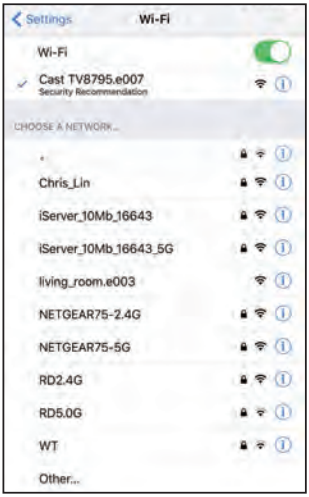
5 Open bluetooth，if you don't want open bluetooth,pls skip to step 7.

6 Touch DEVICES and choose the TV with Google Home you want to set up. Touch SETUP,skip to step 8.





7 Connect the wifi which blongs to Chromecast built-in.



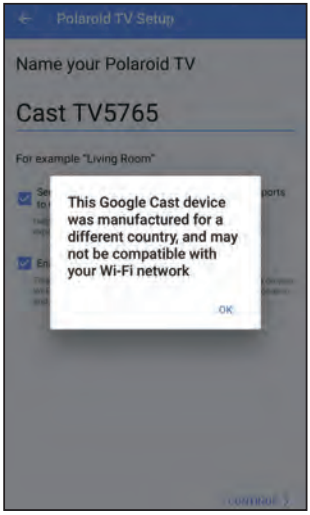
8 Touch CONTINUE.

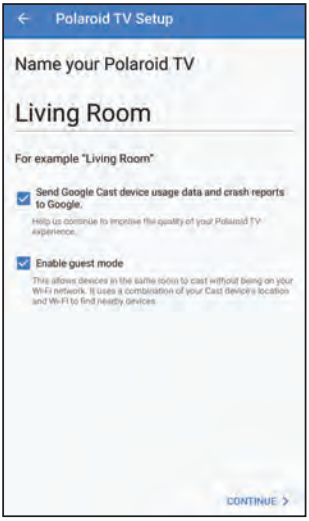
9 Touch I SEE THE CODE

10 Touch OK;

Optional: Change the name of your TV with Chromecast built-in to something distinct by deleting the current name and typing in a new name.

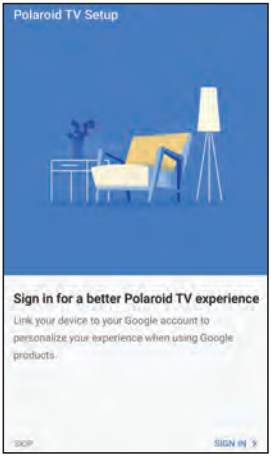
Note: Guest mode and Send Chromecast built-in device usage data and crash reports to Google are enabled by default. If you don't want to enable them, touch the check marks next to their corresponding prompts. Touch CONTINUE.





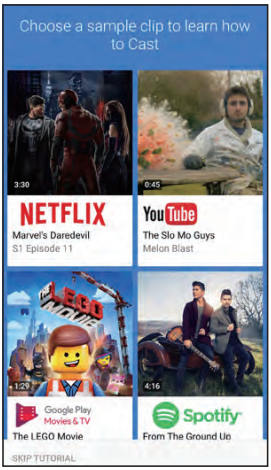
11 Choose the Wi-Fi network you want to connect to your TV with Chromecast built-in. Enter password. Touch CONTINUE.

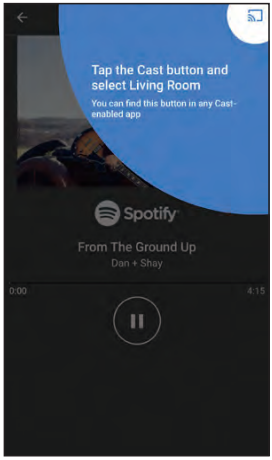
12 Touch SIGN IN.Touch CONTINUE.



13 Touch LEARN HOW TO CAST

14 Choose a sample clip to learn how to Cast.





If you still have questions,please visit www.polaroidhdtv.com or google.com/cast/help

Main Menu Operation

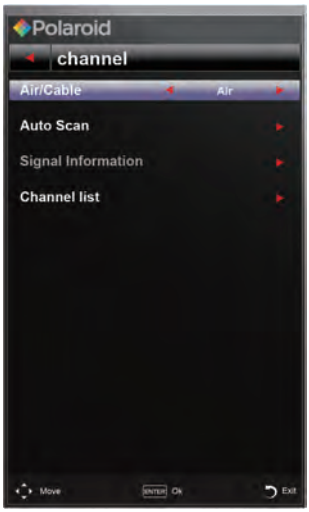
Press MENU to display the main menu or return to the previous menu or close the main menu.
Press ◄ / ► to highlight the desired menu icon, and press ENTER to select.
If no buttons are pressed, the menu will close automatically after about 10 seconds.

SELECT INPUT SOURCE

Press INPUT button to display the input source list.
Press ▼ / ▲ button to select the input source you want.
Press ENTER button to enter the input source.
Press EXIT button to quit.

Channel Menu

Press MENU to enter the main menu, Press ◄ / ► button to select.
Press ENTER / ▼ to enter.
Press MENU again to exit or back to parent menu.



Press ▼ / ▲ button to select among Air/Cable / Auto Scan / Signal Information/Channel List .
Press ENTER to enter.
Press ◄ / ► button to adjust.
Press MENU again or back to parent menu.

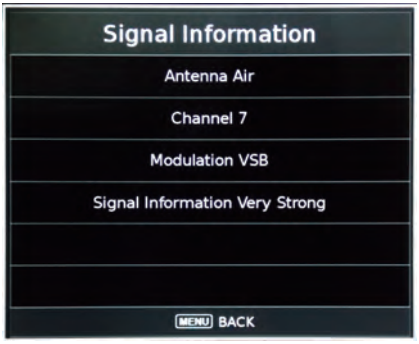
Air/Cable

Select signal type.
Press ◄ / ► button to select(Air/Cable).

Auto Scan

Automatically search for channels.
Press ENTER button to enter.

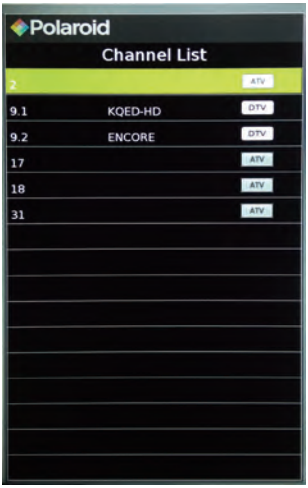
Only available when there is signal under DTV.



After finishing your adjustment, Press MENU button to return back to the previous menu.

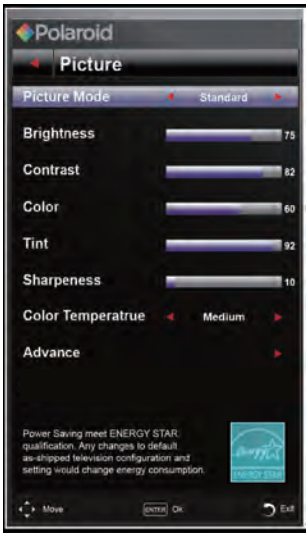
Channel List

Display your program list.
Press ENTER button to enter.



Picture menu

Press MENU to enter the main menu, Press ◄ / ►button to select.
Press ENTER to enter.
Press MENU again to exit or back to parent menu.



Press ▼ / ▲ button to select among Picture Mode /Brightness/ Contrast / Color/ Tint / Sharpness / Color Temperature/Advanced Settings.
Press ENTER to enter.
Press ◄ / ► button to adjust.
Press MENU again or back to parent menu.

picture mode
Adjust picture mode to change picture appearance.
Press ◄ / ► button to select(Standard / Dynamic / Mild / User/Power Saving).

Note:The brightness,contrast,color, tint and sharpness are only available in User mode,you can adjust as you like.

Standard	Produces a highly defined image in a normally lit room.
Dynamic	Produces a highly defined image in a brightly lit room.
Mild	Produces a highly defined image in a mild lit room.
Power Saving	Saving Save energy.
User	Select to customize picture settings.

Brightness

Adjust the visual perception output of the entire picture, it will effect the iuminousness of the picture.
Press ◄ / ► button to adjust.

Contrast

Adjust the highlight intensity of the picture, but the shadow of the picture is invariable.
Press ◄ / ► button to adjust.

Color

Adjust the saturation of the color based on your own like.
Press ◄ / ► button to adjust.

Tint

Adjust the hue(Red,Green,Blue) of the picture.
Press ◄ / ►button to adjust .

Sharpness

Adjust the peaking in the detail of the picture.
Press ◄ / ► button to adjust.

Press ► button to review Quick Setup Guide.
Press MENU again or back to parent menu.

Troubleshooting

If the device performance fails, check whether the detected problem is in the following table. If your device still fails, contact customer service.

SYMPTOM	POSSIBLE CAUSE	REMEDY
TV – No signal input connected, loose or disconnected.	Signal cable is loose or not connected.	Ensure signal cable is not loose or disconnected. Reattach and try again.
Remote Control Distance is short, no control.	Receiver of remote control is covered.	Ensure the remote receiver is not obstructed.
	The battery energy of the remote control is too low.	Change the batteries.
TV Display is faint.	Adjustment is incorrect.	Use auto-adjustment function.
	Display mode is incorrect.	Use recommended mode.
TV Display image does not fill the screen.	Adjustment is incorrect.	Use auto-adjustment function.
		Enter PICTURE to adjust the horizontal and vertical position.
	Display mode is incorrect.	Use recommended mode.
TV Unable to operate the TV	Exterior influence, for example lighting, static electricity and so on, which might disturb the normal operation of the TV.	Press the ⏻ button to tum off electrical source, then press the ⏻ button to turn on the TV again after 1-2 minutes.
Static and sound noise.	Antenna cable connector is loose, cable is damaged.	Check the antenna cable connector plug for secure connection and any damage.
	Antenna cable type is not correct.	Check antenna cable type (VHF/ UHF).
	Direction or position of antenna is incorrect.	Adjust the direction or position of antenna.
	Signal is weak.	Attempt to use signal amplifier.
TV image is better, but has noise.	Antenna cable connector is loose, cable is damaged.	Check the antenna cable connector plug for secure connection and any damage.
No image. No sound.	Power plug is loose, power cord does not connect well.	Check to ensure power cord is connected.
		Press POWER on panel or remote control.
		Check if the ⏻ button is on.
TV image has stripes.	Signal is exposed to interference, such as a car, neon light, electric blower, etc.	Do not use an electric blower around unit.
		Adjust antenna cable direction to reduce interference.
TV image has shadows.	TV signal is reflected by valley or building.	Use a high-directional antenna.
	Direction of antenna is incorrect.	Adjust direction of the antenna.
TV has no sound.	Volume setting is too low.	Adjust volume to proper level.
	Sound is muted.	Press MUTE to deactivate mute.

CAUTION: Do not allow your TV screen to display the same image for an extended period of time. Please set up a screen protection procedure. If a high-contrast picture remains on the TV screen for a long time, this picture could burn the image onto the screen. Usually the burnt image will disappear gradually when you turn off the TV's power. However, this damage cannot be repaired.

Data Interface	USB
Supported System Files	FAT32 and FAT16

Mode	55GSR4100KM
TV System	ATSC
Maximum	3840x2160
Brightness	300 cd/m2
Static Contrast	6000:1
Response Time	6 ms
Consumption	150W
Power Supply	AC 100-120V- 50/60Hz
Connectivity	HDMI input x 3 RF Antenna Input Google Cast LAN Output Headphones Output OPTICAL Output
Data Interface	USB
Supported System Files	FAT32 and FAT16

Mode	65GSR4100KN
TV System	ATSC
Maximum	3840x2160
Brightness	350 cd/m2
Static Contrast	6000:1
Response Time	6 ms
Consumption	250W
Power Supply	AC 100-120V- 50/60Hz
Connectivity	HDMI input x 3 RF Antenna Input Google Cast LAN Output Headphones Output OPTICAL Output
Data Interface	USB
Supported System Files	FAT32 and FAT16

Mode	75GSR4100KL
TV System	ATSC
Maximum	3840x2160
Brightness	400 cd/m2
Static Contrast	5000:1
Response Time	6 ms
Consumption	300W
Power Supply	AC 100-120V- 50/60Hz
Connectivity	HDMI input x 3 RF Antenna Input Chromecast built-in LAN Output Headphones Output OPTICAL Output
Data Interface	USB
Supported System Files	FAT32 and FAT16

Remote Control

Signal Type	Infrared
Control Distance	8 meters
Control Angle	30° (Horizontal)
Power Supply	AAA 1.5V x 2
