

## SUBRTEX GEL MEMORY FOAM MATTRESS

In addition to the lifetime warranty on our gel memory foam mattress, Subrtex covers all of defects in the material for 10 years (from the date of purchase).

### Limitations of Warranty

The warranty does not cover cosmetic damages such as scratches, rips and tears. In addition to other outside causes such as extensive wear, fire or other activities that may cause damage are not covered. During this period, please contact customer service and we will determine if we need to replace or repair the damaged components. There will be no charge to the customer for factory involved issues.

### Limitations of Remedy

Mattresses are warranted to be free from defects in materials or workmanship for 10 year from the date of purchase. Within this period, Subrtex will, at its sole option, repair or replace any components that fail in normal use. Such repairs or replacement will be made at no charge to the customer for parts or labor.

### Legal Rights

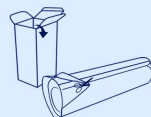

This warranty gives you specific legal rights, and you may have other legal rights which vary from state to state.

## GEL-INFUSED MEMORY FOAM MATTRESS

1

Pull the mattress out of the package.  
Cut the plastic wrapping and remove the compressed mattress.  
For your own safety, be careful with sharp objects and avoid cutting the memory foam and cover.

2

Carefully unroll the mattress and lay it flat, allowing it to recover naturally. Do not place it near high heat or open flame.  
Please allow at least 24 hours to restore at room temperature for the surface to return to its normal shape and form.

3

Please allow up to 48 hours for the odor to dissipate before fully enjoying a good night's sleep on your brand new Subrtex Gel-infused Memory Foam Mattress.

### Attention:

1. Due to the unique properties of memory foam, dimensions may subtly VARY after full expansion; it is normal and WILL NOT affect the performance of your mattress.
2. Memory foam may have slight odor initially; it WILL NOT bring any harm to your body, it will dissipate over normal use.
3. Discoloration to the memory foam may appear over time due to oxidation. Oxidation is a natural process when memory foam is exposed to light; it will NOT affect the performance of your mattress.
