KERATIN HAIR TREATMENT

KC

KÉRATIN CURE MIAMI

RE-INVENT YOURSELF!

detailed Instructions

Step 1

Wash the hair twice with KC Clarifying Shampoo. Rinse well and towel dry (for very tight curls &virgin hair: leave the shampoo on for 7-10 minutes to ensure that the hair cuticles are ready to receive the treatment)

Step 2

Standard blow-dry using medium heat. Blow-dry hair 100%.

Step 3

Part hair. Apply KC BIO Treatment with a color brush section by section. Do not over saturate. Complete each section by combing root to tip to distribute the treatment evenly and ease any excess for the next section. Leave on for 20-25 minutes.

Step 4

Standard blow dry using medium heat with round brush as you begin your straightening technique.

Step 5

For ultimate shine & easy brushing apply KC Silicon Shine & Cure Hair Serum sparingly though-out the hair.

Step 6

Part hair & flat iron the hair, section by section at 320°F /160c for high lifted or over processed hair & up to 350° F/176c for more resistant hair, This step will seal the cuticle & the treatment into the hair fiber.

Step 7

Wait for the hair to cool down after the final flat iron process & wash hair with KC Post Shampoo.

Step 8

Suggestion *For even smooother more beautiful results.*

Apply Keratin Cure Deep Masque Conditioning and leave for 10 minutes to soak in the hair. Rinse, dry and style as usual.

Advise the client to best maintain their new treatment to use Keratin Cure Post Daily Use Shampoo & Conditioners. Please visit www.keratincure.com for the latest on tips & instructional videos!
