

Weller[®]

Handy Heat for Hot Projects

The versatile Thermo-Boost Heat Tool / Soldering Gun kicks hobbies and home projects into high gear.

COOPER Hand Tools

Soldering and more with the Therma-Boost Heat Tool.

Introducing Therma-Boost... the 27-watt continuous heat tool that turns into a high-performance 130-watt, soldering gun with a squeeze of the Therma-Boost trigger. In standard mode, Therma-Boost can run for hours, making it perfect for cutting rope, Styrofoam®, and other craft materials, scoring hard substances like Plexiglas®, and smoothing or shaping materials like soft plastics. Press the Therma-Boost trigger, and it quickly heats to 950°F, handling most soldering jobs with ease.

Ultra-light 3 oz. total weight for extra comfort
Changeable tips (conical soldering tip shown)

Standard Mode / Therma-Boost Mode Indicator lights

Therma-Boost trigger for extra power and soldering

Includes six handy tips

Conical Soldering Tip for fine detail work

"Screwdriver" Tip for larger soldering jobs

Scoring Tip for hard materials, such as tile and Plexiglas®

Rope Cutting Tip for cutting and sealing the ends of synthetic rope

Foam Cutting Tip for cutting Styrofoam® insulation and craft materials

Smoothing Tip for smoothing and shaping soft plastics and wax
